Claim Notes

Claim number:	C-1048
Claimant:	Yvonne Miller
Adjuster:	Jerry Hanson

9 Jun 2023
Claim opened after a rear-end collision reported at a signalized intersection. The insured's vehicle was struck from behind by a sedan, and the claimant reported a knee injury from the impact. The driver is named on the policy, so coverage is being confirmed on that basis.

5 Jul 2023
Police report obtained. It confirms the claimant was in the vehicle at the time of the collision and records the other driver's account of the sequence.

29 Jul 2023
Recorded statements taken from the other driver and two independent witnesses. All three describe the collision the same way as the initial report.

26 Aug 2023
Scene photos and the vehicle damage photos received from the insured. Nothing in the photos suggests prior damage to the vehicle, and no earlier damage is known from the file.

28 Aug 2023
Claimant is represented by counsel. Future contact is to go through the attorney's office. Medical authorization forms requested.

11 Sep 2023
Claimant's recorded statement taken through counsel. The account is consistent with the original report, and some additional details were given that were not in the first notice of loss, but the core sequence did not change.

2 Nov 2023
Medical records received. The reported knee injury fits the type and force of a rear impact of this kind. No prior treatment to the same body area appears in the records reviewed so far.

22 Nov 2023
Treatment followed a typiacl course, with physical therapy and follow-up visits. Records show improvement over time and the frequency of care tapered as the claimant recovered.

7 Jan 2024
Repair estimate reviewed with the shop. Some of the listed damage may not be fully attributable to this impact, so the line items are being checked against the collision photos before a final figure is set.

17 Jan 2024
Confirmed with the underwriting file that the policy was in force on the loss date and that nothing points to damage occurring before coverage began. Coverage position is unchanged.

24 Jan 2024
Liability and injury evaluation sent to counsel for review. Next step is a respnose on the settlement demand within the timeframe set by the file.

Q: Good afternoon. This is the adjuster calling about the rear-end collision you reported in Sugar Land. Is this a good time to record a statement?

A: Yes, that's fine. Go ahead.

Q: Thank you. Please state your full name and confirm you're the driver of the vehicle that was struck from behind.

A: I'm the driver. I was in my own car, stopped at a light on the main road heading toward the shopping center.

Q: Understood. Tell me what happened rgiht before the impact.

A: I was stopped behind a white sedan. The light was red. I felt a jolt and my head snapepd forward and back. I lokoed in the mirror and saw a pickup right on my bumper.

Q: Did you notice the pickup approacihng before the collision?

A: Not really. I was watching the light and my phone was in the cup holder. I didn't see it until it was too late.

Q: How fast do you think it was moving when it hit you?

A: It didn't seem like a huge speed, but it was enough to push me into the sedan ahead.

Q: Where did you feel pain first?

A: My right knee. It hit the dashboard. Over the next day it swelled up and I couldn't bend it all the way.

Q: Have you seen a doctor or received any treatment for the knee?

A: Yes, I went to urgent care the same evening and I've had follow-up visits with my family doctor. I'm doing physical therapy twice a week now.

Q: Did you have any knee problems before this collision?

A: No, nothing that stopped me from working or exercising.

Q: Thank you. Is there anything you'd like to add about the accident?

A: Just that I'm still having trouble with stairs and driving for long stretches. I'd like the claim handled as quickly as possible.

Q: Understood. I'll follow up with the documents we discussed. Thank you for your time.

A: Thanks. Have a good day.
