Claim Notes

Claim number:	C-1049
Claimant:	Ashley Smith
Adjuster:	Jerry Hanson

11/14/2024
First notice of loss received for a collision at an intersection in which the insured's vehicle was struck while the other driver turned left across our insured's path. The claimant, who is not represented by counsel, reported a wrist injury and is currently driving the insured vehicle as a household member of the policyholder.

12/25/2024
Spoke with the claimant, who described the crash the same way he did when first reported, saying the other vehicle turned in front of him as he proceeded through the intersection. His account has not changed in any conversation so far.

12/28/2024
Reviewed the police report, which places the claimant inside the vehicle at the time of impact and records the scene as consistent with a left-turn collision. Independent witnesses and the other driver give statements that match the claimant's version of events.

01/07/2025
Collected scene photographs showing front-end damage to the insured vehicle and the side of the other vehicle. The photos are consistent with the reported impact, though I have not yet determined whether every area of damage resulted from this single event.

02/13/2025
Requseted the claimant's medical records. The reported wrist fracture is a plausible injury for a collision of this type, and no prior injury to that area appears in the file or was mentioned by the claimant.

04/04/2025
Treatment has followed a typical course, with the claimant attending scheduled follow-up visits and reporting steady improvement. Care has tapered as expected, and the treating provider's notes match that progression.

04/07/2025
Confirmed with underwriting that no prior damage to the insured vehicle is on record and nothing indicates any dmaage predates the start of coverage on this policy.

04/26/2025
Reviewed the repair estimate against the photos and the impact description. Some items on the estimate may not be explained by this collision alone, so I have asked the repair facility for a more detailed braekdown before settling those lines.

05/10/2025
Verified that the claimant is a household member of the policyholder and therefore qualifies as a covered driver under the policy's terms. No exclusion applies based on the driver's relationship to the insured.

05/14/2025
Coverage is confirmed for the collision and the claimant's injury. Remaining open items are the detailed repair breakdown and final medical billing. Reserves have been adjusted to reflect the current estimate, and the file will be reviewed again once those documents arrive.

Recorded Statement

Claim number:	C-1049
Statement of:	Ashley Smith
Taken by:	Jerry Hanson
Date:	10/10/2024

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep to the accident itself, if that's all right.

Q: That's fine. Can you describe where you were driving when the collision happened?

A: I was in Katy, Texas, heading toward a shopping center on the far side of the intersection. I needed to make a left turn into the parking lot.

Q: What was the traffic like at the time?

A: It was fairly steady. The light had gone green for me, and I was waiting for a gap in oncoming cars so I could turn.

Q: Did you see the other vehicle before the impact?

A: I saw headlights coming toward me, but they seemed far enough away. I started my turn, and then there was a loud bang on the driver's side front.

Q: Where did your vehicle come to rest?

A: Partly in the turn lane and partly in the lane I was turning into. My airbags went off.

Q: Were you injured?

A: Yes. I hit the steering wheel and then tried to brace myself with my left hand. My wrist was badly hurt. I was taken by ambulance and was told it was fractured.

Q: Have you received any treatment since?

A: I've had a cast put on and I'm scheduled for a follow-up with an orthopedic doctor next week. I'm still having trouble girpping things.

Q: Did you speak with anyone at the scene about what happened?

A: Just briefly with the other driver and with the officer who came out. I told the officer what I've told you.

Q: Is there anything you'd like to add to your statement?

A: Only that I was being careful and waiting for a clear path before I moved. I'd like the claim handled as quickly as possible because I can't work with this wrist.

Q: Thank you. This concludes the statement.
