Claim Notes

Claim number:	C-1050
Claimant:	Diane Jones
Adjuster:	Jerry Hanson

2024-07-21
First notice of loss received from the policyholder's driver reporting a low-speed collision in a parking lot with another vehicle, with a head injury described as a concussion. Claimant is not represented by counsel at this time.

2024-08-18
Confirmed the driver is named on the policy and that coverage was in force at the time of the reported loss. Nothing in the file suggests the damage predates the policy start.

2024-08-24
Spoke with the claimant, who described the same sequence of events as in the initial report, including the approximate speed and the point of impact. The account has not changed across contacts.

2024-08-29
Police report on file lists the claimant as an occupant of the vehicle at the scene, and a responding officer's notes match the described position of both cars.

2024-10-17
Reviewed photographs submitted by the claimant. They confirm several details of the impact, including the location of the damage and the resting positions of the vehicles.

2024-10-29
No independent witnesses have come forward. Asked the claimant for any other sources of information and will follow up if anything is produced.

2024-10-30
Damage to the vehicle is mostly consistent with the impact described. Obtained a repair estimate from the body shop and am comparing it against the photos.

2024-11-19
Checked prior loss history on the vehicle. No earlier damage to this vehicle is known to exist.

2024-12-04
Claimant reports a concussion from the collision, with headaches and dizziness in the days that followed. The reported injury is plausible for a collision of this type.

2025-01-12
Medical records show a course of treatment that followed a usual pattern, with visits tapering as symptoms improved. Records also note a minor strain to the same general area several years ago, which resolved fully with no ongoing issues.

2025-01-24
Discussed the prior strain with the claimant, who confirmed it and said it had healed completely. The treating provider's notes support that account, and the current injury appears separate from it.

2025-02-09
Claim review is on hold pending the final medical bills and the repair invoice. Current assessment is that the reported loss and injury are consistent with the available evidence.

Recorded Statement

Claim number:	C-1050
Statement of:	Diane Jones
Taken by:	Jerry Hanson
Date:	2024-07-03

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on a recording for this, but you can list me as the claimant on the file.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in a parking lot at a shopping center in Sugar Land, Texas. I had just pulled into a space near the entrance and was getting my bags out of the back seat.

Q: What hpapened next?

A: I heard a horn and then a loud bang. A pickup backing out of the row next to me hit the rear quarter panel of my car. I didn't see it coming because my view was blocked by the cart corral.

Q: Did you have any contact with the other driver afterward?

A: Briefly. He got out and apologized, and he said he thought the lane was clear. He gave me his insurance card, and I took a photo of it.

Q: Are you currently receiving medical treatment?

A: Yes. I went to urgent care that afternoon. They diagnosed me with a concussion. I've had headaches, trouble concentrating, and I've been sensitive to light. My doctor has me resting from screens and driving for now.

Q: Have you missed work because of your injuries?

A: I've been out for about two weeks. I work from a laptop, and I can't stay focused long enough to do it right.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm still having symptoms, and I'm working with my doctor on the recovery plan. I'll send you the medical records once I have them.

Q: Thank you. This concludes the statement.
