Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Sugar Land, Texas, when my rear bumper struck the side of a pickup truck that was moving slowly through the lane behind me. The impact was not severe, but my head snapped forward and then back against the headrest, and within an hour I had a headache, nausea, and trouble focusing on the screen of my phone. A friend drove me to urgent care, where I was told I had a concussion and was advised to rest and avoid screens. I have described the events the same way to the other driver, to the responding officer, to the adjuster, and to the doctor, and I have nothing to add or change. I am the named driver on this policy, and I am submitting this sttaement so the claim can be reviewed.
