Bodily Injury Unit

Claim Notes

Claim number:	C-1056
Claimant:	Timothy Middleton
Adjuster:	Alison Sweeney

December 12, 2023
First notice of loss reecived for a low-speed head-on collision involving the insured vehicle. The claimant reports a wrist injury and is represented by counsel, so all further contact will go through the attorney's office.

January 7, 2024
Confirmed that the driver is named on the policy and that coverage is in force on the reported loss date. No coverage questions have been identified at this stage.

January 21, 2024
Police report obtained. Officers confirm the claimant was present in the vehicle at the scene, and the report's description of the collision matches the initial statement.

March 3, 2024
Statements taken from two independent witnesses, both of whom describe the crash the same way the claimant and the other driver did. Scene photos were also reviewed and are consistent with that account.

March 13, 2024
Inspected the insured vehicle. Damage to the front end and airbag deployment line up well with the reported impact, and the repair estimate has been opened.

April 3, 2024
Reviewed the medical records. The wrist fracture is consistent with the type and force of this collision. Treatment has run somewhat longer than is typical for this injury, so the file will be monitored as records arrive.

April 22, 2024
Prior records show a minor strain in the same area many years ago, which resolved fully with no ongoing limitation. Noted for the file and for the medical reviewer.

May 4, 2024
At a follow-up, the claimant added some small details to the account of the accident. The core sequence of events has not changed from the original statement.

May 18, 2024
Photos of the vehicle show a few older scratches in areas not clearly tied to this impact. Their age is not yet established, so the appraiser has been asked to note them separately.

July 7, 2024
A neighbor contacted the desk and believes the vehicle was already damaged several weeks before the reported date. This is a single unverified remark and has been logged for follow-up wtihout being treated as a finding.

July 9, 2024
Next steps are to request the remaining treatment records through counsel, obtain the appraiser's supplement on the older marks, and schedule a review of the neighbor's comment before any settlement discussion.

Recorded Statement

Claim number:	C-1056
Statement of:	Timothy Middleton
Taken by:	Alison Sweeney
Date:	November 22, 2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in at the location in League City, Texas. Pelase state your full name for the record.

A: Sure. I'd rather not give my full name on the recording, so I'll just say I'm the driver of the vehicle that was struck head-on.

Q: That's fine. Can you describe what happened as best you can remember?

A: I was heading down the road in my own lane, going slowly because of the traffic ahead. The other car drifted over the center line and we ended up nose to nose. It wasn't a hard hit, but the airbags didn't deploy and both cars were still drivable for a moment.

Q: How fast do you believe you were traveling?

A: Maybe fifteen or twenty miles an hour. I was slowing down, so I doubt it was more than that.

Q: Did you receive medical attention after the collision?

A: Yes. An ambulance took me to the hospital. They X-rayed my arm and wrist and told me I had a fracture in my wrist. I'm wearing a splint now and I've got a follow-up appointment with a specialist.

Q: Are you still experiencing pain or limited movement?

A: Yes, especially when I grip anything or try to turn a doorknob. The doctor said it will take several weeks to heal properly, and I may need physical therapy.

Q: Thank you. Is there anything else you'd like to add?

A: Only that I'm cooperating fully and I'll send you the medical records once I get them.

Q: Thank you for your time. This concludes the statement.
