Claim Notes

Claim number:	C-1060
Claimant:	Jacqueline Martin
Adjuster:	Jerry Hanson

3-3-25
First notice of loss came in from the policyholder's household member, who reported a sideswipe while changing lanes on a multi-lane road. The claimant reported a knee injury and said they were not represented by counsel.

3-18-25
Spoke with the claimant by phone. They described the same sequence as the first report: the other vehicle drifted into their lane as they were merging, and their side panels made contact. They gave the same account of the impact without prompting.

3-26-25
Obtained the police report. The officer's notes place the claimant outside the vehicle when the collision occurred, which conflicts with the claimant's own statement and needs to be clarified before any injury evaluation is finalized.

3-29-25
Reviewed photos from the scene and the other driver's statement. Both show contact along the right side of the vehicle, consistent with the described impact. A witness statement also describes the collision as the claimant reported it, though the witness did not see who was inside the vehicle.

7-21-25
Inspected the vehicle. The damage pattern matches the impact described by the claimant and the other driver. No prior body damage or repairs to the same area were found in the records or on inspection, and nothing suggests the damage predates the coverage start.

7-31-25
Requested medical records. The knee injury is the kind expected from a force of this type. Treatment has continued somewhat longer than is typical for this injury, and the file shows no earlier problems with the same knee.

8-3-25
Confirmed with the policy records that the driver involved lives with the policyholder and is covered as a household member under the policy. Coverage applies to the driver for this loss, subject to the open question about the claimant's location at the time of the crash.

9-6-25
Followed up with the claimant again to address the officer's and witness's accounts about their position at impact. The claimant repeated their original account, and the file remains open pending the medical review and that clarification.

Recorded Statement

Claim number:	C-1060
Statement of:	Jacqueline Martin
Taken by:	Jerry Hanson
Date:	3-4-25

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the sideswipe collision in Conroe, Texas. Can you confirm you're comfortable being recorded?

A: Yes, that's fine.

Q: Where were you sitting at the time of the collision?

A: I was in the front passenger seat. My friend was driving.

Q: Can you describe what was happening right before impact?

A: We were on the highway and my friend signaled to move into the left lane. A vehicle in that lane was coming up fast. As we started to move over, that car clipped the side of ours. It pushed us toward the median and we spun a little before stopping.

Q: Did either vehicle stop at the scene?

A: No, the other driver kept going. We got the plate partially, but not the whole thing.

Q: Tell me about your injuries.

A: My right knee hit the dashboard hard. It swelled up within an hour and I could barely put weight on it. I went to an urgent care clinic that same day and they took X-rays and told me to follow up with an orthopedic doctor.

Q: Have you been seen by a specialist since then?

A: Yes, I had an MRI and I'm now doing physical therapy twice a week. The doctor mentioned a possible torn meniscus, but they're still evaluating it.

Q: Are you currently experiencing any limitations?

A: Yes. Stairs are difficult, and I've had to stop working my shifts on my feet. I'm still getting used to the brace.

Q: Thank you. Is tehre anything else you'd like to add?

A: Only that I want to make sure the other driver's information gets recorded properly, since they left the scene.

Q: Understood. Thank you for your time today.
