Patient:	Jacqueline Martin
Treating provider:	Kelsey Daniels, DC
Diagnosis:	knee injury

Treatment history by month

Month and services	Visits	Charges
March 2025: chiropractic adjustment, evaluation, massage therapy	4	$676.40
April 2025: chiropractic adjustment, imaging, pain management, physical therapy	4	$1,447.29
May 2025: imaging, pain management, physical therapy	4	$1,999.67
June 2025: massage therapy, pain management	3	$589.08

Treatment summary

Patient presented following a sideswipe collision that occurred while the other driver was changing lanes. The reported mechanism is consistent with the knee injury observed, and the force described aligns well with the type of structural damage found on examination. Imaging and clinical examination clearly confirm the injury. No prior injury or treatment to the same body area is known from the history obtained. The patient completed 15 visits over the course of care. The course of treatment ran somewhat longer than is typical for this presentation, with progress tracked at each visit to guide the plan. Billed services reflect single charges for each visit and procedure, with no repeated or duplicate entries. Patient is being discharged to a home exercise program with follow-up as needed.
