Claim Notes

Claim number:	C-1062
Claimant:	Laurie Johnson
Adjuster:	Alison Sweeney

4-7-25
The claimant reported a side impact at a conrtolled intersection and said the other vehicle entered from the left while the light was changing. The claim was opened and assigned for review the same day.

4-17-25
Verified the driver against the policy declarations and confirmed the named insured is listed as the operator of the vehicle involved. Coverage was in force at the time of loss, and nothing in the file suggests the damgae predates the policy start.

4-27-25
Spoke with the claimant by phone to take a full statement. The account of the approach, the impact point, and the sequence afterward matched the first report in every detail.

5-16-25
Reviewed the police report, which confirms the claimant was in the vehicle at the scene and lists the vehicles and their final rest positions. The responding officer recorded no citations at the time.

5-28-25
Received scene photos from the claimant showing the driver side door and rear quarter panel damage. The images confirm some of the details described but do not show the signal or the approach path.

7-16-25
Requested statements from nearby businesses and bystanders. No independent witnesses were located, and the claim will rely on the police report, photos, and the parties' accounts.

8-27-25
Obtained the repair estimate and inspected the vehicle. The pattern and location of the damage are consistent with the side impact described, and no prior damage to the same panels is recorded in the claim history.

8-31-25
Ran a prior claims and loss history search for the vehicle and the claimant. No earlier damage to this vehicle appears in any database checked.

9-4-25
The claimant reported neck pain and stiffness the day after the collision and was seen at urgent care. The reported injury is a neck strain, which fits the kind and force of a side impact of this type.

9-17-25
Medical records show treatment followed a usual course with physical therapy and home exercise. Symptoms improved steadily, and care tapered off as the claimant recovered. No earlier injury to the same area is known from the records obtained.

9-27-25
Reviewed the treatment bills and compared them with the injury and the expected recovery timeline. The charges are consistent with the care documented, and no unusual items were found.

10-26-25
Reviewed the file with the handling supervisor. The claim is supported by the policy, the vehicle damage, the police

report, and the medical records, and it is ready for the settlement evaluation.

Recorded Statement

Claim number:	C-1062
Statement of:	Laurie Johnson
Taken by:	Alison Sweeney
Date:	4-4-25

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the file.

A: I'd rather not give my name on the recording, if that's alright. You already have it on the claim.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was driving through an intersection in League City, Texas. It was a four-way intersection with traffic lights.

Q: What direction were you traveling, and what was the signal showing for you?

A: I was heading east. My light was green, I'm pretty sure of that. I had just started to move again after the cars in front of me cleared.

Q: What happened next?

A: A car coming from the north side ran through the intersection and hit the driver's side of my vehicle. I didn't see it comnig at all. I braked, but there wasn't time.

Q: Were you injured?

A: My neck hurt right away, and by the next morning it was stiff and sore. I have a headache from time to time, and turning my head to check mirrors is painful. I went to a clinic the following day.

Q: Did you need any emergency treatment at the scene?

A: No, I was able to get out of the car on my own. The paramedics checked me over and I declined transport at that point.

Q: Have you had any previous neck problems?

A: Nothing serious. I had some stiffness years ago after a long drive, but it cleared up on its own and I didn't see a doctor about it.

Q: Is there anything else you'd like to add?

A: Only that I'd like the other driver's side of this to be looked at carefully. That's all I have to say.

Q: Thank you. This concludes the statement.
