Claim Notes

Claim number:	C-1063
Claimant:	Michael Oconnor
Adjuster:	Darin Tyler

2024-12-15
First notice of loss received for a side impact at an intersection. The insured reports the other vehicle entered on a red siganl and struck the driver's side door.

2025-03-12
Police report obtained. The responding officer confirms the claimant was in the vehicle at the time of the collision and notes the scene layout matches the account given.

2025-04-06
Spoke with the insured, who confirmed that the driver is named on the policy and that the vehicle was insured on the date of loss. Nothing in the file suggests the damage predates the coverage start.

2025-04-13
Claimant is represented by counsel. All further contact to go through the attorney's office. Requested medical authorizations and prior records.

2025-04-28
Recorded statement taken from the claimant's representative. The claimant has described the collision the same way in every conversation so far, including the sequence of impact and the position of the vehicles.

2025-05-04
Witness statements and scene photogarphs reviewed. Witnesses, the photos and the other driver all agree the accident happened as described.

2025-05-31
Field inspection completed. Damage is consistent with a side impact to the driver's door and panel. A few old scratches near the rear wheel well may be older than this crash, so they are noted separately for now.

2025-06-18
Medical records received showing neck and back strain. It is not yet clear whether the injury came from this crash, and the treating notes do not yet address the question directly.

2025-06-25
Treatment has run somewhat longer than usual for this type of strain. No earlier injury to the same body area is known from the records requested so far. Follow-up with the treating physician is pending.

2025-07-07
Repair estimate reviewed. It is not clear whether all of the listed damage came from this impact, so the body shop has been asked to separate pre-existing wear from new collision damage.

2025-07-08
File remains open pending medical causation review, the repair breakdown, and a response from the claimant's attorney on the outstanding records request.

Recorded Statement

Claim number:	C-1063
Statement of:	Michael Oconnor

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just be caleld the claimant on this one, if that's okay.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in the front passenger seat of my friend's sedan. We were going through the intersection in Houston on a green light, or at least that's how I remember it.

Q: Who was driving, and what direction were you traveling?

A: My friend was driving. We were heading east when a pickup coming from the north ran the red and hit us on the driver's side, the side closest to me? No, actually the impact was on the passenger side where I was sitting.

Q: Let me clarify that. You said the pickup struck the passenger side. Was that the side where you were seated?

A: Yes, that's right. The door on my side took the hit and the whole car spun a little.

Q: Did you hit anything inside the vehicle or were you restrained?

A: I had my seatbelt on. My head snapped to the side and my shoulder slammed into the door frame.

Q: When did you first notice pain or discomfort?

A: Within a few minutes, my neck felt stiff. By the next morning my lower back was aching too, and turning my head to check traffic hurts now.

Q: Have you souhgt medical care since the collision?

A: Yes, I went to an urgent care clinic that same day and was told I had a neck and back strain. I've been doing physical therapy twice a week sicne then.

Q: Did you have any neck or back problems before this collision?

A: Nothing serious. I had some occasional stiffness from sitting at a desk, but nothing that stopped me from working or exercising.

Q: Is there anything else you'd like to add?

A: Only that I'm still having trouble sleeping and lifting groceries, and I'd like the claim to reflcet that.

Q: Thank you. This concludes the statement.
