Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Conroe, Texas, moving slowly with my brake lights on, when the rear of my car was struck by a vehicle that came down the aisle faster than I expected. I stopped right away, got out, and exchanged information with the other driver before we moved our cars out of the traffic lane. Since then I have described what happeend the same way each time I have spoken with the adjuster, the repair shop, and my own doctor. The impact pushed my head back and jolted my body forward against the seatbelt. The next morning I felt stiffness and a dull ache in my neck and loewr back, and I was diagnosed with a neck and back strain. I am the named driver on this policy and I am submitting this statement so the claim can be reviewed.
