Description of the accident (claimant's words)

I was driving in the right lane on a Houston highway when I signaled and moved left to change lanes. A vehicle in the next lane came up alongside me and clipped the side of my car, pushing me toward the median before I regained control. I pulled onto the shoulder and stopped. I have held the same policy in my own name for several years, and I am the registered owner and primary driver listed on it. I was taken to a hopsital afterward, where I was diagnosed with a concussion. I have had headaches, dizziness, and trouble concentrating since then, and my doctor has advised rest and follow-up visits. I am providing this account as accurately as I can recall it. Some details of the moment itself, including exactly which way the other vehicle was moving and how many people were in my car, have come back to me differently as I have thought about it over the past few days, and I want to be transparent about that.
