Bodily Injury Unit

Claim Notes

Claim number:	C-1068
Claimant:	Eric Solis
Adjuster:	Alison Sweeney

1-30-24
The claim was reported by the insured's attorney following a side impact at a signalized intersection, and the claimant describes a concussion from the collision. The file has been opened and assigned for review.

2-14-24
Confirmed that the driver is listed on the policy and that the policy was in force on the date of loss. No issues with coverage have srufaced at this stage.

2-15-24
Obtained the police report, which places the claimant in the vehicle at the time of the crash. Photos taken at the scene show damgae consistent with the described impact.

4-3-24
Reviewed the photos and the body shop estimate. The vehicle damage lines up with a side impact of the type the claimant describes, and no earlier damage to the vehicle is known from our records or the prior inspection.

4-6-24
Spoke with counsel, who confirmed the claimant's treatment plan and provided medical records. The concussion diagnosis is plausible for a crash of this nature, and no prior injury to the head or neck has been identified.

4-28-24
Medical treatment has run somewhat longer than is typical for this injury. I've requested updated records from the treating provider to understand the reasons for the extended course.

5-27-24
Took a recorded follow-up statement from the claimant through counsel. The claimant added a few small details that were not in the first account, but the core description of the collision has remained the same.

8-17-24
No independent witnesses have come forward, so the file rests on the police report, the scene photos, and the claimant's statements. These sources agree on the basic facts of the loss.

8-21-24
Reviewed the file as a whole. The injury and vehicle damage are consistent with the reported loss, and nothing in the file points to a pre-existing condition or damage predating coverage. Continuing to monitor the extended treatment period before setting a resolution path.

Recorded Statement

Claim number:	C-1068
Statement of:	Eric Solis
Taken by:	Alison Sweeney
Date:	1-15-24

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the collision at the intersection in Baytown. Please state your full name for the record.

A: I'd rtaher not give my full name on a recording right now. I'm still dealing with a headache and it's hard to focus.

Q: That's understandable. We can keep it brief. Can you tell me where you were coming from and where you were headed when the collision happened?

A: I was driving through the intersection on a green light, heading east, on my way home from a job site.

Q: Do you recall the traffic signal being green when you entered the intersection?

A: Yes, I'm fairly sure it was green. I remember watching it as I came up to the crossing.

Q: What happened next?

A: A vehicle came from my right side and hit the driver's side of my car. I didn't see it until just before impact. I braked, but there wasn't time to avoid it.

Q: Did you have any contact with the other vehicle before the impact, or did you swerve?

A: No, I didn't swerve. I was focused on the light and the cars ahead of me.

Q: After the collision, did you feel any injuries?

A: I hit my head on the side window. I had a headache right away, I felt dizzy, and the light bothers my eyes. The doctor said I have a concussion.

Q: Have you been seeing a physician for that?

A: Yes, I've been going in for follow-up visits and I'm resting as much as I can. Some days are better than others.

Q: Thank you. Is there anything you would like to add that I haven't asked about?

A: Only that I want my car and my medical bills taken care of. I'm still recovering, so I may need to follow up with you later.

Q: Understood. Thank you for your time today. This concludes the statement.
