Description of the accident (claimant's words)

I was stopped at the intersection on Baytown waiting to make a left turn when a car coming through on the cross street struck the side of my vehicle. I had my foot on the brake and my car was not moving at the time of impact. The collision happened on 01/20/2024 at about midday, and the other driver stopped a few feet past the intersection. I got out, checekd that I was not seriously hurt, and exchanged information with the other driver. I did not feel much right away, but that evening my right shoulder beagn to ache and by the next morning I had trouble lifting my arm above my head. I am reporting this injury because it started the same day as the collision and I believe the impact caused it.
