Officer's narrative

Officer responded to a rear-end collision in Houston, Texas, in which the front of Driver 2's vehicle struck the rear of Driver 1's vehicle while both were traveling in the same lane. Driver 1 reported pain in the right shoulder and was accompanied by a Pasesnger seated in the front passenger seat. The Passenger and Driver 2 both confirmed that the collision occurred as Driver 1 described it, and two witnesses gave matching accounts. Scene photographs were taken, and the rear damage is largely consistent with the impact described. The shoulder injury Driver 1 reported fits the direction and force of a rear impact of this kind. Driver 1 produced a currnet insurance card listing Driver 1 as the named insured. The officer found no sign of earlier damage to the vehicle, and no one at the scene mentioned prior collisions or repairs. Driver 1 was transported for medical evaluation, and no citations were issued at the scene.
