Claim Notes

Claim number:	C-1071
Claimant:	Mary Baker
Adjuster:	Darin Tyler

29 Dec 2024
Claim received for a low-speed collision in a parking lot. Insured reports being rear-ended while stopped at a painted stall. Claimant is represented by counsel, and all contact will route through their office.

11 Jan 2025
Confirmed the driver is listed on the policy and the coverage period was active on the date of loss. Nothing in the file suggests the vehicle damage predates the policy start.

30 Jan 2025
Reviewed scene photographs. They confirm the general position of both vehicles and the rear-end contact. No independent witnesses have come forward, and the police report confirms the claimant was in the vehicle at the time.

1 Feb 2025
Vehicle inspection completed. Most of the damage lines up with the described impact. A few old scratches near the lower bumper may predate this loss, and I have noted them separately for the appraiser.

14 Feb 2025
Claimant's account has been consistent across every conversation so far, including the initial report, the recorded statement, and the follow-up call with counsel present.

24 Mar 2025
Medical records received for the reported back strain. The injury fits the type and force of the collision. The patient had a minor strain in the same area years ago, which healed fully and is documented in prior records.

6 May 2025
Treatment followed a typical course, with physical therapy and reduced visits as the paitent improved. The provider's notes show steady progress and a tapering schedule that matches expected recovery.

5 Jul 2025
File is ready for evaluation. Liability and coverage are straightforward on the current record. Medical and property amounts will be assessed on the dcouments as they stand, with the prior strain and the older scratches noted for review.

Recorded Statement

Claim number:	C-1071
Statement of:	Mary Baker
Taken by:	Darin Tyler
Date:	4 Dec 2024

Q: Thank you for agreeing to give this recorded statement. Can you confirm you're comfortable with us recording this call?

A: Yes, that's fine.

Q: Please describe where the collision happened.

A: It was in a parking lot in Pearland, Texas, at a shopping center. I was pulling out of a parking space near the main entrance.

Q: What time of day was it, and what were the conditions like?

A: It was in the afternoon. It was dry and bright, so visibility was good.

Q: Walk me through what happened as you were backing out.

A: I checked my mirrors and looked over my shoulder before reversing. I started backing slowly, and when I was about halfway out, I felt a jolt as another vehicle clipped the rear corner of my car. The other driver was coming down the aisle, and I didn't see them until the impact.

Q: Did you or the other driver stop before the contact?

A: I had stopped briefly before moving, but the other car didn't appear to slow down much.

Q: Did anyone call for police or exchange information?

A: We exchanged insurance and contact details. I don't believe the police came out, since there were no serious injuries at the scene.

Q: Tell me about your injuries and when you first noticed them.

A: My lower back felt tight and sore within about an hour. I went to an urgent care clinic later that day, and they diagnosed a back strain. I've been doing physical therapy and taking it easy with lifting since then.

Q: Are you still experiencing pain, and have you missed any work?

A: Yes, I still have some stiffness, especially after sitting for long periods. I've missed a few days of work and have been working modified duties for the past couple of weeks.

Q: Is there anything else you'd like to add to your statement?

A: No, I think I've covered everything. Thank you.

Q: Thank you. This concludes the recorded statement.
