Claim Notes

Claim number:	C-1072
Claimant:	Colleen Black
Adjuster:	Valerie Rodriguez

4 May 2024
Claim opened following a report of a rear-end collision at a signalized intersection. The insured's vehicle was struck from behind while stopped, and the claimant reported a right knee injury.

17 May 2024
Confirmed that the driver is named on the policy and that coverage was active at the time of loss. Assigned the file for investigation.

3 Jun 2024
Obtained the police report, which places the claimant inside the struck vehicle at the scene. Both the reporting officer and two independent witnesses confirm the collision happened as described.

18 Jun 2024
Reviewed photos from the scene and the other driver's statement. Both are consistent with the reported impact, and the damage pattern on the vehicle matches a rear-end collision of this kind.

4 Jul 2024
Spoke with the claimant's attorney, who confirmed representation and asked that all contact go through their office. Requested medical records and the treatment history for the knee.

6 Jul 2024
Received the first medical report. It describes a knee injury, but the physician has not yet stated whether it was caused by this collision, so causation remains open.

21 Aug 2024
Took a recorded statement from the claimant through counsel. The account of the crash matches what was given to the police and to the other driver, with no changes in any conversation.

22 Aug 2024
Contacted a neighbor who recalled seeing the vehicle with visible damage several weeks before the claimed loss date. Noted this as an unverified recollection and planned to follow up.

22 Sep 2024
Checked prior claims and records for the claimant and the vehicle. No earlier damage to the vehicle appears in the file, and no prior injury to the same knee has been identified.

11 Oct 2024
Reviewed the treatment billing and visit log. Treatment has run somewhat longer than is typical for this type of knee injury, and the additional visits are being chceked against the medical notes.

15 Oct 2024
Sent the neighbor's recollection and the veihcle inspection notes to the medical reviewer and to counsel for comment. Requested a clarification from the treating physician on the timing of onset.

14 Nov 2024
Causation of the knee injury is still unresolved pending the physician's clarification. Vehicle damage, the accident itself, and the claimant's presence in the car are confirmed, and the file stays open for the medical review.

Recorded Statement

Claim number:	C-1072
Statement of:	Colleen Black
Taken by:	Valerie Rodriguez
Date:	9 May 2024

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just be referred to by my role in this, if that's alright. I was the passenger.

Q: That's fine. Can you tell me where you were when the collision happened?

A: We were stopped at a light on a main road in Pasadena, Texas, heading east. It was late afternoon and traffic was fairly heavy.

Q: And what happened next?

A: The driver behind us didn't stop in time. I felt a hard jolt from behind, and my knee hit the dashboard. My head snapped back too, but the knee is what hurt right away.

Q: Did you get out of the vehicle at the scene?

A: I got out, but I was limping and needed help standing. A bystander held my arm whlie we waited for the police.

Q: Did you seek medical attention that day?

A: Yes, an ambulance took me to the emergency room. They took X-rays and told me there was no break, but the swelling was bad and they wrapped it.

Q: Have you been seeing a doctor since?

A: Yes, I've had two follow-up visits with an orthopedic clinic. They mentioned possible ligament damage and want an MRI.

Q: How is the knee affecting your daily life?

A: I can't climb stairs without pain, and I've had to take time off work because standing for long periods is hard. Sleeping is rough too beacuse I can't find a comfortable position.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm still waiting on the MRI results, and I'll share those with you once I have them.

Q: Thank you. This concludes the statement.

A: Thank you.
