Description of the accident (claimant's words)

I was riding in the front passenger seat of our family car when we were struck from behind at a traffic light on April 22, 2024 in Pasadena. I had just felt the car slow for the red signal when there was a loud crash and my head snapped forward and back. The impact pushed our car into the vehicle ahead of us. Everyone in the car was hurt. My neck and shoulders ached immediately, and the driver had pain in her wrist. The two children in the back were crying and holding their necks, and the adult beside them said his ribs hurt when he breathed. We stayed in our seats until paramedics arrived and checked each of us. The other driver got out and apologized, saynig he had looked down at his phone for a moment. Our car was badly damaged at the rear and we could not drive it away.
