Claim Notes

Claim number:	C-1074
Claimant:	Wayne Parrish
Adjuster:	Alison Sweeney

2025-07-24
First notice of loss came in describing a left-turn collision at an intersection. The insured driver is named on the policy, and nothing suggests the coverage period had lapsed or that the damage predates it.

2025-08-20
Scene photographs show front-quarter and passenger-side damage that is largely in line with the impact as described. No earlier damage to the vehicle is known from prior claims or inspection history.

2025-10-18
Claimant reports a wrist fracture, and the injury fits the kind and force expected from this type of crash. No earlier injury to the same area is on record. The claimant has given the same account in every conversation so far.

2025-12-11
The responding officer and the other parties on scene state that the claimant was not in the vehicle when the crash occurred. No independent witnesses have come forward, and the photographs confirm some details but not the claimant's position at impact.

2025-12-19
Claimant is now represented by counsel, and all further contact will go through the attorney. Treatment has followed a usual course and tapered off as the patient improved, according to the records received so far.

2026-01-02
File reviewed. Vehicle damage and injury are both broadly consistent with the reported impact. Open items are the claimant's position at impact and counsel's written response. Reserve maintained pending that review.

Recorded Statement

Claim number:	C-1074
Statement of:	Wayne Parrish
Taken by:	Alison Sweeney
Date:	2025-05-19

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the collision you were involved in while turning left in Pearland. Can you state your full name for the record?

A: Sure. I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you describe where you were coming from and where you were headed when the collision happened?

A: I was leaving a shopping center and heading toward the main road. I had to make a left turn across one lane of oncoming traffic.

Q: What was the weather and lighting like?

A: It was daylight and clear. The pavement was dry as far as I could tell.

Q: Walk me through what you saw before the impact.

A: I checked both directions. There was a gap, so I started to turn. About halfway through the turn, a vehicle coming toward me hit the front passenger side of my car. I didn't see it until just before it hit.

Q: Did you have your headlights on, and were you using your turn signal?

A: Headlights were on. I had my signal on for a good stretch before I started the turn.

Q: Were you injured?

A: Yes. I put my arm out to brace myself and my wrist took most of the force. I was told it's fractured, and I've been wearing a splint since.

Q: Have you received medical treatment since the collision?

A: I was seen at an urgent care that same day and then referred to an orthopedic doctor. I have a follow-up scheduled.

Q: Did anyone else report injuries?

A: My passenger didn't say anything was wrong, but I'm not sure they were checked.

Q: Is there anything you'd like to add to your account?

A: Only that I'm sorry the other driver was hurt too, if they were. I just want my car looked at and my medical bills handled.

Q: Thank you. This concludes the statement.
