Description of the accident (claimant's words)

I was driving through the intersection in Pearland, Texas, when another vehicle entered from the side and struck the passenger door of my car. I had a green light and was moving at a normal speed when the impact happened. The force threw me against the seatbelt, and I felt an immediate pain in my neck and lower back. I stayed at the scene until the other driver and the responding officer had finished speaking with me. When I later recalled a few smaller details, such as the position of the other car after the collision, the core of my account remained the same as I first described it. I am the named driver on the policy, and I have listed my injuries and the damage to my vehicle as accurately as I can.
