Officer's narrative

Officers responded to a sideswipe collision on a Katy, Texas roadway atfer Driver 1 reported that Driver 2 chnaged lanes into the side of their vehicle. Both vehicles remained at the scene and the damage to the right rear quarter panel of Driver 1's vehicle is consistent with the reported impact. Photographs taken at the scene show the damage, though no independent witnesses were located. Driver 1 reported neck and lower back pain, which is a plausible injury for a collision of this type. Driver 1 said the Passenger was seated in the rear, but the Passenger's exact position at the moment of impact was not clear from the statements given. Driver 1 reported no prior damage to the vehicle, and nothing observed at the scene contradicted this. Driver 2 stated that the lane change was made after checking the mirror. Driver 1 is listed as a named insured on the ploicy covering the vehicle. Both drivers exchanged information, and a supplemental report will be filed if further detalis are obtained.
