Claim Notes

Claim number:	C-1082
Claimant:	Jessica Phillips
Adjuster:	Christopher Wong

4-28-25
Claim opened after a rear-end collision in which the claimant's vehicle was struck from behind while stopped at a traffic light. The claimant reports a wrist fracture and is not represented by an attorney.

5-29-25
Reviewed the policy and confirmed the driver involved is named on it. Coverage was in force at the time of the loss, with nothing indicating a lapse or a start date after the accident.

5-31-25
Obtained the police report, which places the claimant inside the vehicle at the scene. The responding officer's notes are consistent with the rear impact described.

6-14-25
Spoke with the other driver, who confirmed the collision happened as the claimant described it. Scene photographs and two independent witness statements match the same sequence of events.

6-20-25
Inspected the claimant's vehicle. The rear damage pattern and crush depth are consistent with the impact described, and no prior damage to the vehicle is on record.

7-9-25
Claimant's account of the collision and of the injury was given again today and matches the initial report in every detail. No prior injury to the wrist or surrounding area is known from the claimant's history.

9-8-25
The reported wrist fracture is consistent with the force of a rear impact of this type, based on the vehicle damage and the claimant's position in the car. Imaging from the emergency visit is on file.

9-28-25
Treatment has continued since the initial visit, with additional appointments and several new services added over the following weeks. The volume of care is higher than I would expect for a fracture of this type, so I have flagged the file for medical review.

11-1-25
Medical review requested the complete treatment records and billing history, and the request is pending. No changes to coverage are recommended at this time.

11-8-25
Next step is to receive the full treatment records and reconcile the services billed against the documented injury. Reserves will be reviewed once the medical review is complete.

Recorded Statement

Claim number:	C-1082
Statement of:	Jessica Phillips
Taken by:	Christopher Wong
Date:	4-28-25

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision in Baytown, Texas. Please state your full name for the record.

A: I'd rather just keep it to what happened, if that's okay.

Q: That's fine. Can you describe where you were driving and what the traffic was like when the collision occurred?

A: I was heading down the main road toward the shopping center. Traffic had slowed to a crawl near the light, so I was stopped behind a sedan with my foot on the brake.

Q: Did you notice anything behind you before the impact?

A: Not really. I glanced in the mirror and saw headlights, but it looked like they were still a good distance back. Then there was a hard jolt from behind and my head snapped forward and back.

Q: Did you have your seatbelt fastened?

A: Yes, I always do.

Q: Did you or anyone in your vehicle need medical attention at the scene?

A: The paramedics came and checked me out. My left wrist was hurting badly, and I couldn't grip anything. They said it might be broken, so they put it in a splint and took me to the emergency room.

Q: Have you received a diagnosis since then?

A: Yes. The doctros confirmed a fracture in the wrist. I have a cast now and I'm going to see a specialist for a follow-up.

Q: Have you been able to return to work or your usual activities?

A: Not fully. I'm right-handed, but I can't lift or type the way I used to, so I've had to adjust.

Q: Tahnk you. Is there anything you'd like to add to your statement?

A: Just that I'd like to get my car repaired and get this wrist healed as soon as possible.

Q: Thank you. This concludes the recorded statement.
