6 May 2023
Claim opened for a low-speed collision in a parking lot involving two vehicles. The claimant reports neck pain and has retained counsel, so all further contact will go through the attorney's office.

9 May 2023
Reviewed the claimant's policy and confirmed the driver is named on it. Coverage was in force at the time of the loss.

13 May 2023
Obtained the police report and witness statements. Both confirm the claimant was seated in the veihcle when the impact occurred, and the other driver describes the accident the same way.

19 Jun 2023
Photos from the scene and the repair estimate were reviewed. The damage is largely consistent with the impact described, though a few old scratches on the rear bumper may predate this loss and have been noted separately.

11 Jul 2023
Spoke with the claimant's attorney, who provided the initial medical records. The whiplash diagnosis fits the type and force of the collision well, and no prior injury to the neck has been identified in the records received.

Claimant's account has stayed consistent across every conversation, incluidng the recorded statement and the follow-up call with counsel present. Treatment has continued somehwat longer than is typical for this injury, so the medical file is being reviewed.

Recorded Statement

Claim number:	C-1083
Statement of:	Lindsey Smith
Taken by:	Alison Sweeney
Date:	16 Apr 2023

Q: Thank you for taking the time to speak with me today. This is a recorded statement regarding the parking lot collision in Baytown. Please state your full name for the record.

A: I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you describe what you were doing when the collision happened?

A: I was backing out of a space near the store entrance. I'd checked my mirrors and didn't see anything, but the other vehicle came around the end of the row a little faster than I expected.

Q: How fast would you estimate the other vehicle was moving?

A: Honestly, not very fast, maybe a slow roll. But it was enough to catch my rear bumper and push me back a couple of feet.

Q: Were you wearing your seatbelt at the time?

A: Yes, I was.

Q: Did you feel any immediate injury after the impact?

A: Not right away. I was a bit shaken, but I got out and walked around. By that evening my neck was stiff and turning my head hurt.

Q: Have you sought medical attention since the collision?

A: Yes, I went to urgent care the next day. They diagnosed whiplash and told me to rest, take anti-inflammatory medication, and do some gentle stretching. I've also been seeing a physical therapist twice a week.

Q: Are you still experiencing symptoms?

A: Yes, I still get headaches and some stiffness, especially in the mornings. Sitting in the car for long stretches bothers me too.

Q: Is there anything else you'd like to add to your statement?

A: Just that I want to make sure my vehicle repairs and medical bills get handled properly. Thank you for listening.

Q: Thank you. This concludes the recorded statement.
