Claim Notes

Claim number:	C-1086
Claimant:	Carrie Hatfield
Adjuster:	Christopher Wong

2-19-24

Claim reported by the insured's policyholder after a collision at an intersection where the vehicle was turning left and was struck on the driver side. The claimant is represented by counsel, and all further contact will be routed through the attorney's office. The driver is named on the policy, and the policy was in force at the time of loss.

3-4-24

Reviewed the police report and spoke with the responding officer, who confirmed the claimant was in the vehicle at the scene. No independent witnesses have come forward, so the account rests on the parties involved and the photographs taken at the scene. The photos confirm some of the details reported by the claimant.

3-22-24

Vehicle inspection completed. The damage is mostly consistent with the impact described by all parties. No prior damage to the vehicle is known, and nothing in the file suggests the damage predates the start of coverage.

5-8-24

The claimant has given the same account in every conversation so far, including the initial statement and the follow-up call. The wrist fracture claimed is still under review, and it is not yet clear whether the injury resulted from this crash. Medical records show the claimant was traeted for the same body area within the last two years, and that prior condition appears to add to the current complaints.

6-29-24

Recieved medical billing and treatment notes. Treatment followed a usual course for this type of injury and tapered off as the patient improved. Records have been rqeuested from the treating providers to clarify the timeline of the prior condition relative to this loss.

7-11-24

File remains open pending receipt of the requested medical records and the attorney's demand package. Next review scheduled once those documents are received and the causation question has been assessed.

Recorded Statement

Claim number:	C-1086
Statement of:	Carrie Hatfield
Taken by:	Christopher Wong
Date:	2-19-24

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Pasadena, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you describe where you were driving when the collision happened?

A: I was heading down the main road toward a shopping center, and I was turning left into the parking lot entrance.

Q: What was the traffic like at the time?

A: It was fairly light. There was one car coming the other way, and I think it was stopped at the light a little ways back.

Q: Did you see the other vehicle before the impact?

A: Not really. I looked, saw the oncoming car, and started my turn. The next thing I knew there was a loud bang and my car was spinning a bit.

Q: Where did the other vehicle strike your car?

A: On the driver's side, toward the back. I felt it in my whole body.

Q: Did you receive any medical attention after the collision?

A: Yes, an ambulance took me to the hospital. They said my left wrist was fractured. I have a cast on it now and I'm taking it easy.

Q: Have you seen a doctor since then?

A: Yes, I've had two follow-up appointments and I'm scheduled for another next week.

Q: Is there anything you would like to add to your statement?

A: Just that I want to make sure the report is accurate about the timing of the light. I'm telling you what I remember, and I'm happy to answer anything else.

Q: Thank you. This concludes the statement.
