Claim Notes

Claim number:	C-1087
Claimant:	Sean Torres
Adjuster:	Jerry Hanson

2024-05-04
Claim reported by the insured's policyholder after a low-speed head-on collision in a parking area. The claimant reports neck pain and has retained counsel, who has asked that all contact go through their office.

2024-05-17
Confirmed the driver is named on the policy and the coverage was in force at the time of loss. No issues with the policy terms have been found.

2024-06-03
Reviewed photos from the scene and the other driver's statement. Both describe the same sequence of events and the point of contact between the two vehicles.

2024-06-10
Witness statements were obtained and match the account given by both drivers. Nothing in the file contradicts how the collision occurred.

2024-06-20
Vehicle inspection completed. The damage pattern is consistent with the impact described and the estimated repair is in line with a collision of this speed.

2024-06-30
Checked prior claims and vehicle history. No earlier damage to this vehicle has been found in any records reviewed, and nothing suggests the damage predates the policy start.

2024-07-03
Claimant's account was taken again through counsel. The description of the collision and the symptoms that followed matches what was given in the first report.

2024-07-10
Medical records received. The reported injury, a soft tissue strain to the neck, is a typical result of a collision with this force. No prior treatment to the neck or upper back appears in the records.

2024-11-08
Treatment has continued for somewhat longer than is usual for this type of injury. The treating provider's notes give reasons for the extended course, and we are requesting further detail.

2024-11-26
Clarification requested from counsel on where the claimant was seated at impact, as the statements so far do not fully settle this. The answer may affect how the injury is assessed.

2024-12-04
Claim remains open pending the seating position response and the final treatment report. No reason to dispute the core facts of the loss at this stage.

Recorded Statement

Claim number:	C-1087
Statement of:	Sean Torres
Taken by:	Jerry Hanson
Date:	2024-04-18

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Sugar Land, Texas. Can you please state your full name for the record?

A: I'd rather not give my full name on a recording, but I can confirm I'm the driver of the vehicle involved.

Q: That's fine. Can you describe what happened as best you remember?

A: I was heading down the two-lane road in the early afternoon. A car coming the other way drifted into my lane and we clipped each other nose to nose. It wasn't a big impact. Both of us were going slow, maybe fifteen or twenty miles an hour.

Q: Did either vehicle leave the roadway or strike anything else?

A: No. We both stopped right there in the lane. Nothing else was hit.

Q: How did you feel immediately after the collision?

A: Honestly, I felt okay at first. I was a little shaken up, but I didn't think I was hurt. By that evening my neck was stiff and I had a dull ache running into my shoulders.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to urgent care the next morning. They diagnosed whiplash and told me to rest and take anti-inflammatories. I've been doing physical therapy twice a week since then.

Q: Are you still experiencing symptoms?

A: Yes. Turning my head to the left is the hardest part, and I get headaches toward the end of the day. Sitting at my desk for long stretches makes it worse.

Q: Is there anything else you'd like to add?

A: Only that I'm trying to keep working and do what my doctors ask. I'd appreciate any help with the medical bills.

Q: Thank you. I'll follow up with the documentation we discussed.

A: Thank you.
