Claim Notes

Claim number:	C-1088
Claimant:	Patrick Singh
Adjuster:	Valerie Rodriguez

01/05/2025
The claimant reported a low-speed head-on collision and stated that the policyholder's vehicle was struck while stopped in a lane. The claimant is now represented by an attorney, so all further contact will go through counsel.

01/17/2025
Police confirmed the claimant was seated in the vehicle at the scene, and two independent witnesses have given statements consistent with the reported sequence of events. The other driver also described the collision the same way.

01/30/2025
Scene photographs and the damage to the vehicle line up with the described impact. Nothing in the file suggests the damage predates the policy's effective date.

02/17/2025
The driver is listed as a named insured on the policy, and the coverage was in force at the time of loss. No prior damage to the vehicle appears in our records or in the inspection report.

04/08/2025
The claimant reported neck and back strain shortly after the collision, which fits the type and force of impact seen in the photographs. Medical records from the first visit describe pain consistent with that injury.

04/09/2025
Initial treatment was modest, but over the following weeks the frequency of visits increased to nearly daily, and the volume of care is now well beyond what is usual for a strain of this kind. Pain was later reported in additional areas of the body that were not mentioned at the first visit.

05/03/2025
Our search of prior claims and medical history found no earlier injury to the same areas of the neck and back. The claimant's prior records show no comparable complaints.

05/08/2025
In a recorded follow-up, the claimant added some minor details about the position of the vehicles and the sequence of braking, but the core account has remained the same across every statement given so far.

06/04/2025
Counsel has requested an evaluation of the claim and has asked that the carrier direct questions through the firm. I have acknowledged the request and noted the file accordingly.

06/09/2025
I reviewed the treatment plan with the file and noted that the number of providers and the scope of therapy have expanded since the claim was opened. I have asked for the treating physician's rationale for the additional areas.

07/31/2025
The claim file has been reviewed against the photographs, witness statements, police report, and vehicle inspection. The accounts agree with one another, and the physical evidence supports the reported impact.

08/09/2025
Next steps include requesting the complete treatment records, confirming the physician's reasoning for the expanded

care, and scheduling an independent medical review before any settlement discussion proceeds.

Recorded Statement

Claim number:	C-1088
Statement of:	Patrick Singh
Taken by:	Valerie Rodriguez
Date:	12/31/2024

Q: Thank you for taking the time to spaek with me today. This recorded statement concerns the collision you were involved in in Pasadena, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please state your full name and the best number to reach you.

A: I'd rather keep my personal details off the record for now, but I can give you a callback number if you need it.

Q: That's fine. Can you walk me through how the collision happened?

A: I was driving slowly through an intersection near a shopping center. The other vehicle was coming toward me from the opposite direction and was making a turn across my lane. We were going maybe fifteen miles an hour, and we ended up meeting nose to nose. Neither of us was really moving fast.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did the airbags deploy in your vehicle?

A: No, they didn't. It was more of a jolt than a crash, honestly.

Q: How are you feeling since the collision?

A: My neck is stiff, and I have a dull ache in my lower back that gets worse if I sit for a long time. I went to a clinic the same day and they said it looked like strain. I'm taking it easy and using a heating pad.

Q: Have you seen a physician or received any other treatment since then?

A: I've had two follow-up visits and I'm doing some stretching at home that the doctor recommended. I'm still working, but I've had to adjust some tasks.

Q: Is there anything else you'd like to add?

A: Just that I want to coopearte fully and get this resolved. Thank you.

Q: Thank you. This concludes the statement.
