Description of the accident (claimant's words)

I was driving my own vehicle slowly through a Pasadena, Texas intersection when the other car came straight toward me and we colilded head-on. Neither of us was going fast, but the impact was enough to jolt me forward and back against my seat. Since then I have had stiffness and soreness in my neck and lower back, which I am getting checked out. I was the named driver on the policy at the time, and I gave the same core description of what happened to the officer at the scene as I do here. Some details came back to me over the following days, such as which lane the other car had been in and how long the traffic light had been red for me, and I have included those as best I recall. The main sequence of events has not changed from my first statement. I am providing this account so the claim can be processed and I can focus on my recovery.
