Description of the accident (claimant's words)

I was stopped at a red light on a county road in Conroe, Texas, when the car behind me hit my rear bumper hard enough to push my vehicle forward into the intersection. I felt a sharp jolt through my neck and lower back. I had no time to brace, and I stayed in my seat until the police officer arrived. Since the collision, I have gone over what happened several times, and I have remembered a few small details I had not mentioned at first, such as the otehr driver's brief comment and the color of the traffic signal, but the core of my account has not changed. I am covered on this policy because I live in the same household as the policyholder, and I am reporting this incident in that capacity. My neck and back have been sore and stiff since the impact, and I have been seeing my doctor for treatment of what was diagnosed as a neck and back strain.
