Description of the accident (claimant's words)

I was driving slowly through an intersection in Pasadena, Texas, when the other car came straight toward me and we collided head-on. Neither of us was going fast, but the impact was enough to jolt me forward and back against my seat belt. I felt a sharp pain in my right shoulder right away and have had trouble lifting my arm since. At the scene I described what happened to the responding officer, and I have told the same account in every conversation since. Over time I remembered a few small details, such as where the other driver's vehicle came to rest, but the core sequecne of events has not changed. I am the named driver on this policy and I am submitting this statement so my shoulder injury can be reviewed.
