Description of the accident (claimant's words)

I was stopped at a red light on a main road in Katy, Texas, when the car behind me sturck the rear of my vehicle. The impact was hard enough to push me forward into the brake pedal and jolt my body sharply. I got out and spoke with the other driver at the scene, and I have told the same story every time since. Afterward I noticed more details, such as the eaxct sound of the impact and how long the traffic light had been red, but these additions do not change what happened. I am the named driver on this policy, and I am submitting this account for review. My right shoulder became stiff and painful within hours, and I have since been seeing a doctor about it.
