Claim Notes

Claim number:	C-1101
Claimant:	Gregory Harper
Adjuster:	Darin Tyler

2024-06-16
Claim opened after a rear-end collision reported by the insured driver, who was stopped at a signal when the vehicle behind struck the rear bumper. Police attended the scene and the insured's report was recorded on arrival.

2024-08-11
The other driver's statement matches the insured's account of how the impact occurred. Two independent witnesses at the intersection also describe the sequence in the same way.

2024-08-12
Photographs taken at the scene and the damage seen on inspection are consistent with the described impact. Rear bumper, tailgate and lamp assembly show the damage expected from this type of collision.

2024-08-15
Records show no prior damage to the vehicle in this area and no earlier claims on it. Nothing indicates the damage predates the start of the current policy period.

2024-08-31
The insured reports a knee injury from the impact. The claimant has since instructed legal representation, and all further contact will go through their office.

2024-10-15
The claimant has provided a follow-up account that adds a few smaller details about the seating position and the moment of impact. The core sequence of events has remained the same across each version given.

2024-11-09
Medical records show treatment for the knee that continued somewhat longer than is typical for this type of injury. Nothing in the history shows any earlier problem with the same knee, and the injury is consistent with a collision of this kind.

2024-12-16
The driver is a household member of the policyholder and is covered under the policy as such. Police and witness statements confirm the claimant was in the vehicle at the time, and the claim is progressing to settlement review.

Recorded Statement

Claim number:	C-1101
Statement of:	Gregory Harper
Taken by:	Darin Tyler
Date:	2024-05-12

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're okay to continue?

A: Yes, that's fine.

Q: Can you describe where you were driving when the collision happened?

A: I was heading down a main road in Pasadena, Texas, in the right lane. Traffic had slowed up ahead because of a light that had turned red.

Q: What happened next?

A: I came to a stop behind a car at the light. About a few seconds later, I felt a hard jolt from behind. My head snapped forward and then back against the seat.

Q: Did you see the vehicle that hit you before the impact?

A: No, I didn't. I was looking at the light and the car in front of me. I only noticed it when I heard the brakes squeal and then the impact.

Q: Did you get out of your vehicle at the scene?

A: I did, but my left knee gave out when I stepped down. It struck the door frame and I had to hold onto the car to stay upright.

Q: Have you sought medical treatment for your knee?

A: Yes. I was taken to an urgent care cilnic that same afternoon. They took X-rays and said there was swelling and some ligament soreness. I've been told to keep weight off it for a while and to follow up with an orthopedic doctor.

Q: Is there anything else about the accident you'd like to add?

A: Only that my car has damage to the rear bumper and trunk, and I'm still having trouble walking up stairs. I'll send over the clinic paperwork when I get home.

Q: Thank you. We'll follow up with you once we've reviewed everything.

A: Thanks, I appreciate it.
