Claim Notes

Claim number:	C-1102
Claimant:	Taylor Johnson
Adjuster:	Alison Sweeney

2-2-24
Claim reported by phone to the adjuster line. The caller describes being struck while turning left at an intersection and reports a concussion, with symptoms beginning shortly after the impact.

2-16-24
Reviewed the policy file. The driver of the insured vehicle is named on the policy, and the coverage period in effect covers the reported loss.

3-6-24
The claimant has no legal representation at this time and is handling the claim directly. Explained the documentation needed for the injury and vehicle portions.

3-17-24
Photos of the vehicle were received from the claimant. They confirm several of the described details, though the images do not show the full sequence of the collision.

3-31-24
Inspected the damaged areas. Most of the damage is in line with the impact described, and the force shown on the front and side paenls fits the reported crash.

4-11-24
A few older scratches were noted on the rear bumper. They may predate this incident and will be set aside for the repair estimate.

4-13-24
Checked for independent witnesses. None were identified at the scene, and the police report does not list any.

5-25-24
Spoke with the claimant again. The account of how the collision occurred matches what was given in the first call, including the turning movement and the point of impact.

6-17-24
Medical records were requested. The initial treatment for the head injury fits the kind and force of the crash, and the course of care was typical, with symptoms easing as the claimant improved.

7-15-24
Records also show treatment for the same condition well before this crash. Much of the current complaint appears to stem from that earlier history, so this is being weighed carefully.

7-17-24
The claimant was not identified at the scene and first contacted the carrier several days after the collision. The delay and the earlier records are noted in the file for review.

8-19-24
Nothing so far suggests the vehicle damage occurred before the coverage start date. Next steps are the repair estimate, the full medical review, and a decision on the bodily injury portion once the records are complete.

Recorded Statement

Claim number:	C-1102
Statement of:	Taylor Johnson
Taken by:	Alison Sweeney
Date:	1-30-24

Q: Thank you for giving us a few minutes today. This recorded statement concerns the collision you reported. Please state your full name for the record.

A: I'd rather just get to the point, but fine. I'm the driver invovled in the accident.

Q: Understood. Can you tell me where the collision happened?

A: It was at an intersection in League City, Texas. I was making a left turn across traffic when the other vehicle hit my driver's side.

Q: Were you turning from a stop or while the light was changing?

A: I had a green light, but there was a gap and I thought I could clear it. I'm pretty sure the oncoming car had its headlights on, but it was coming fast.

Q: Did you see the other vehicle before you began the turn?

A: I saw it, but it looked farther away than it was. That's on me, I guess.

Q: Were you wearing your seatbelt, and did the airbags deploy?

A: Seatbelt, yes. The airbag went off, and my head hit the side window pretty hard.

Q: Have you been seen by a medical provider since the accident?

A: Yes, I went to urgent care the same evening. They said I have a concussion. I've had headaches, I get dizzy when I stand up too quickly, and the lgiht bothers my eyes. I'm supposed to rest and avoid screens for a while.

Q: Is there anything you would like to add to your account?

A: Only that I'm sorry about the damage to the other car. I'd like to get this sorted out.

Q: Thank you. This concludes the statement.
