Claim Notes

Claim number:	C-1105
Claimant:	Christine Yoder
Adjuster:	Darin Tyler

June 23, 2024
Claim opened after the policyholder reported a low-speed collision while backing out of a space in a parking lot. The claimant's vehicle was the other car involved, and the claimant is represented by counsel, so all further contact goes through the attorney's office.

June 25, 2024
Reviewed the statement from the policyholder, who confirms the impact occurred as described when backing out. The driver is a household member living with the policyholder and is covered under the policy as such.

June 27, 2024
Obtained photographs of both vehicles and the parking area. The damage on the claimant's vehicle lines up with the impact the policyholder described.

July 25, 2024
Spoke with two witnesses who saw the collision from a nearby walkway. Both independently described the same sequence of events the policyholder gave.

October 20, 2024
Contacted the other driver, who gave an account consistent with the policyholder's version. No prior damage to the claimant's vehicle appears in our records or the inspection notes.

November 1, 2024
Claimant's counsel forwarded a medical report dsecribing a wrist fracture. The injury is plausible for a collision of this type, and no earlier injury to the same area is on file.

November 7, 2024
Reviewed treatment records. Care followed a typical course, with the claimant's symptoms easing steadily as recovery progressed and treatment tapering off accordingly.

November 15, 2024
Took a recorded statement from the claimant through counsel. The account matched what the claimant told the intake team and the treating clinic, and it has stayed consistent across every conversation.

December 11, 2024
The file does not make clear exactly where the claimant was seated in the vehicle at the time of impact. Requested clarification from counsel and noted it as an open item for follow-up.

December 18, 2024
Nothing in the vehicle history or the policy records suggests the damage predates the coverage period. Reviewing the claim against the documented facts, with the seating position as the one open question, before a settlement recommendation is prepared.

Recorded Statement

Claim number:	C-1105
Statement of:	Christine Yoder
Taken by:	Darin Tyler
Date:	May 19, 2024

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just be called the claimant on this one, if that's all right.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in a parking lot in Conroe, Texas, at a shopping center. I had just pulled into a spot near the far end, close to the landscaping.

Q: What were you doing right before the impact?

A: I was backing out of the space slowly. I checked my mirror, didn't see anything, and started rolling back. Then I heard a loud bang on the driver's side.

Q: Did you see the other vehicle before it hit you?

A: No. It came from bheind a parked van that was blocking the aisle. I never had a clear view of it.

Q: How fast would you say you were moving?

A: Walking pace, maybe less. I was barely moving when it happened.

Q: Were you injured?

A: Yes. I put my right arm out to brace myself against the steering wheel and the airbag hit my hand. My wrist was hurting right away, and I was taken to urgent care.

Q: Have you been told what the injury is?

A: The doctor said it's a fracture of the wrist. I have a splint on now and I'm waiting on a follow-up appointment with a specialist.

Q: Did you speak with the other driver at the scene?

A: Briefly. They apologized and said they didn't see me either. We exchanged insurance information and that was about it.

Q: Is there anything you'd like to add to your account?

A: Only that I'm still shaken up and I want my car checked properly, since the driver's door won't open all the way.

Q: Thank you. This concludes the statement.
