June 7, 2024
Claim received for a rear-end collision at a signalized intersection. The insured's vehicle was struck from behind while stopped, and the claimant reports whiplash symptoms. Claimant is represented by counsel, so all further contact will go through the attorney's office.

July 1, 2024
Police report obtained and reviewed. It confirms the claimant was in the vehicle at the time of impact and records the other driver's account, which matches the initial report.

July 12, 2024
Statements taken from two independent witnesses. Both describe the impact the same way as the insured and the other driver, and neither has any connection to the parties.

July 26, 2024
Photographs of both vehicles reviewed. The damage is mostly in line with the described impact speed and direction, and no prior body damage to the vehicle is known from our records or the appraiser's inspection.

October 1, 2024
Verified that the driver involved is named on the policy and that coverage was in force on the date of loss, with no indication the damage predtaes the policy period.

December 2, 2024
Medical records requested through counsel. The reported injury fits the kind and force of a crash of this type. Prior records show a minor strain in the same area years ago that resolved fully.

January 18, 2025
Treatment reviewed. It followed a usual course, with care tapering as the claimant improved. Claimant later supplied a few additional details about the accident, but the core account has stayed consistent across every statement given.

January 20, 2025
File reviewed with supervisor. Liability apperas clear on the other driver's side, and the claim will proceed to evaluation of the injury component through counsel.

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you reported in Sugar Land, Texas. Please state your full name for the record.

A: I'd rather not give my name on a recording, but you can note that I'm the driver of the vehicle that was struck from behind.

Q: That's fine. Can you describe where you were when the collision happened?

A: I was stopped at a red light on a main road in Sugar Land, in the right lane, waiting to turn.

Q: How long had you been stopped before the impact?

A: Maybe fifteen or twenty seconds. The traffic in front of me had cleared, so I was just sitting there.

Q: What happened next?

A: I felt a hard jolt from behind. My head snapped back and then forward, and my car was pushed into the intersection a few feet.

Q: Did you see the ohter vehilce before impact?

A: No. I was looking at the light and the cars ahead. I only saw it in my mirror after it hit me.

Q: Did you get out of your vehicle at the scene?

A: Yes, but I felt dizzy and my neck was stiff. I sat on the curb until the officer arrived.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to an urgent care clinic the same day and was later referred to a physical therapist. I've been having neck pain, headaches, and stiffness in my shoulders.

Q: Did you have any neck or back problems before this collision?

A: No, nothing that required treatment. I was working normally and exercising a few times a week.

Q: Thank you. Is there anything you would like to add for the record?

A: Only that I want my treatment and any repair costs covered as quickly as possible. I'm still having trouble sleeping because of the pain.

Q: Understood. This concludes the statement. Thank you.
