Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1107
Claimant:	Jeremy Quinn
Adjuster:	Christopher Wong

September 1, 2023
The insured reported a sideswipe while changing lanes on a multi-lane road and stated the other vehicle drifted into their lane as they signaled. The claimant is not represented by an attorney and has been cooperative so far.

September 15, 2023
Confirmed that the driver named on the policy was the operator at the time of loss. The driver is listed on the declarations page and the coverage was active when the incident occurred.

September 21, 2023
Police report notes the claimant was present in the vehicle at the scene, and the responding officer's account matches the general description of the collision. Two statements from other sides are on file for reference.

October 11, 2023
Reviewed the scene photographs, which confirm the approximate point of contact on the driver's side and the position of both vehicles after impact. No independent witnesses have come forward to describe how the lane change occurred.

October 12, 2023
Vehicle damage is mostly consistent with the impact described by the claimant. The repair estimator noted the scrape pattern and panel deformation align with a glancing contact at moderate speed.

November 12, 2023
Checked prior loss history for the vehicle and found no earlier damage on record. Nothing in the file suggests the damage predates the coverage start date.

November 18, 2023
The claimant reports pain in the right shoulder following the collision and says the seabtelt tightened sharply on impact. The reported injury appears to match the kind of force expected from this type of contact.

December 30, 2023
Medical records show the claimant was terated for the same body area within the last two years, and the prior condition appears to be adding to the current complaints. A records request has been sent to the treating provider for clarification.

January 10, 2024
Treatment has run somewhat longer than is typical for this injury, with follow-up visits continuing beyond the usual recovery window. The adjuster will ask the treating clinician for an updated plan of care.

February 24, 2024
Spoke with the claimant again today and the account of the lane change and the sequence of events matched what was said in the first conversation. The same details came up in every contact so far.

March 1, 2024
Based on the documentation reviewed, the claim is moving forward with the injury and property components under evaluation. Next steps include obtaining the complete treatment history and scheduling a review once the outstanding records arrive.

Recorded Statement

Claim number:	C-1107
Statement of:	Jeremy Quinn
Taken by:	Christopher Wong
Date:	August 12, 2023

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident details, if that's alright. I'm the driver of the vehicle involved.

Q: That's fine. Can you tell me where the incident happened?

A: It was on a multi-lane road in Pasadena, Texas, heading toward the freeway on-ramp. I was moving over one lane to get into the right-hand lane.

Q: What time of day was it, and what were the road conditions?

A: Mid-afternoon, I think. It was dry, no rain. Traffic was moderate, not stopped.

Q: Walk me through what happened when you changed lanes.

A: I checked my mirror, saw nothing right beside me, and signaled. I started drifting over slowly. Then I felt a bump on my driver's side and heard scraping. The other car had come up into my blind spot, I guess, and we sideswiped each other.

Q: Did you see the other vehicle before you moved over?

A: Not that I recall. I looked, but it wasn't in my mirror when I checked.

Q: Did either of you stop after contact?

A: Yes, we both pulled onto the shoulder a short way down the road and got out to look at the damage.

Q: Were you hurt?

A: Yes, my right shoulder took the brunt of it when I jerked the wheel. It's sore and I've had trouble lifting my arm above my head since then. I saw a doctor afterward.

Q: Did you need any emergency assistance at the scene?

A: The police came and filed a report. An ambulance wasn't needed, but I went to urgent care later that day.

Q: Is there anything else you think I should know?

A: Only that I've been careful about my driving and I want to get my vehicle repaired and my shoulder checked out properly.

Q: Thank you. This concludes the statement.

A: Okay, thank you.
