Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1108
Claimant:	Kimberly Gentry
Adjuster:	Darin Tyler

22 Nov 2023
The insured reported a left-turn collision at an intersection and said the other vehicle struck the passenger side of her car as it crossed the oncoming lane. She is reporting neck and back strain and has retained counsel, so all contact will go through the attorney's office.

29 Nov 2023
The driver is named on the policy and the vehicle is listed as a covered unit. Nothing in our records suggests the damage occurred before coverage began.

22 Dec 2023
Photos taken at the scene show damage that lines up with the described impact on the passenger side and front quarter panel. The estimate has been sent to the appraiser for review.

7 Feb 2024
Police and two drivers at the scene confirm the claimant was in the vehicle at the time. No independent witnesses have come forward to describe how the collision happened.

18 Mar 2024
The claimant's account of the crash has stayed consistent across the recorded statement, the follow-up call, and the written summary from counsel. The details of the turn and the point of impact match each time.

29 Apr 2024
Medical records show a neck and back strain, which is a plausible injury for a side impact of this type. No earlier injury to the same body area appears in the claim history or prior records we obtained.

14 May 2024
Treatment began within a few days of the collision and followed a typical course of physical therapy and medication. Visits tapered off as her range of motion improved and her pain eased.

8 Jun 2024
The appraiser reviewed the vehicle and found no earlier damage to the same panels. The repair scope fits the impact pattern described in the statement and the scene photos.

12 Jun 2024
Counsel has asked for a settlement of the bodily injury portion of the claim. The request is being reviewed against the treatment records and the billing summary.

20 Jun 2024
The bills received so far are itemized and match the treatment dates in the medical file. The adjuster will complete the evaluation of the injury claim once the final records arrive.

21 Jun 2024
File reviewed and current status recorded. Property damage is ready for payment on the repair estimate, and the bodily injury evaluation remains open pending the final medical summary.

Recorded Statement

Claim number:	C-1108
Statement of:	Kimberly Gentry
Taken by:	Darin Tyler
Date:	28 Nov 2023

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident details, if that's okay.

Q: That's fine. Can you tell me where you were driving when the collision happened?

A: I was in Conroe, Texas, heading toward a shopping center on the north side of the main road. I was turning left into the lot.

Q: What was the traffic like at the time?

A: Pretty steady. There was a car coming the other way, and I waited for it to pass. Then I saw a gap and started my turn.

Q: Did you have a green light or a turn arrow?

A: It was a green light, but there was no arrow for left turns. I yielded to oncoming traffic beofre going.

Q: What happened next?

A: A vehicle coming from the opposite direction hit the front passenger side of my car. I felt a hard jolt and my head snapped forward and back.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did you hit your head on anything or lose consciousness?

A: No, I didn't lose consciousness. My head didn't hit anything, but my neck was really sore almost right away.

Q: Where are you feeling pain now?

A: My neck is stiff and it hurts when I turn to check my blind spot. My lower back is also aching, mostly when I sit for a long time.

Q: Have you seen a doctor or received treatment?

A: Yes, I went to an urgent care clinic that same day, and I've been doing physical therapy twice a week since then.

Q: Is there anything else you think I should know about the accident?

A: Just that I was driving carefully and I'm trying to get back to normal. I'm still dealing with the pain every day.

Q: Thank you. That concludes the statement.

A: Okay, thanks.
