Description of the accident (claimant's words)

I was making a left turn at an intersection in Conroe, Texas, when another vehicle struck the side of my car. I had been waiting for a gap in oncoming traffic and had started moving when the impact happened. My car spun partway around before stopping. I have been consistent about what happened each time I have described it, whether to the other driver, the responding officer, or my insurer. I am the named driver on this policy and was the only person operating the vehicle at the time. Since the collision I have had stiffness and soreness in my neck and lower back, which my doctor diagnosed as strain. I am attending physical therapy and following the recommended treatment plan. I am providing photographs of the damage and the repair estimate with this form and will supply any further documentation you require.
