Claim Notes

Claim number:	C-1109
Claimant:	John Butler
Adjuster:	Alison Sweeney

4 Jan 2025
The claimant reported a rear-end collision at a low-speed intersection and said their neck and upper back hurt immediately afterward. The reported injury fits the kind and force of this impact well, and the claimant is not represented by an attorney.

5 Jan 2025
Reviewed the policy record and confirmed the driver is named on the policy and was covered at the time of loss. Nothing suggests the damage occurred before the coverage period started.

19 Jan 2025
Spoke with the claimant by phone to take a recorded statement. The account of how the collision happened was consistent with what was first reported.

3 Feb 2025
Received photos from the claimant showing rear bumper and trunk damage. The photos confirm some details of the impact, and the vehicle damage matches the described collision.

29 Mar 2025
Requested the police report, which confirms the claimant was in the vehicle at the scene. Attempted to locate independent witnesses, but none have come forward and no third-party accounts are available.

6 May 2025
Ran a prior claims and medical history search. No earlier injury to the neck or upper back has been found, and no earlier damage to the vehicle is on record.

8 May 2025
Authorized an independent vehicle inspection. The inspector's estimate lines up with the damage pattern shown in the photos and with the reported point of impact.

16 May 2025
Called the claimant for a follow-up. They repeated the same account of the collision that was gievn in the first report and the recorded statement, with no changes in the sequence of events.

17 May 2025
Treatment has continued for somewhat longer than is typical for this type of injury. Requested treatment records and itemized bills from the provider to review the care plan against standard guidelines.

28 May 2025
Reviewed the file with the claims supervisor. Coverage is confirmed, the injury and vehicle damage are consistent with the collision, and the claim will proceed to evaluation of the medical records and the length of treatment.

Recorded Statement

Claim number:	C-1109
Statement of:	John Butler
Taken by:	Alison Sweeney
Date:	7 Jan 2025

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision in Pearland, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you tell me where you were driving and what happened?

A: I was stopped at a red light on a main road in Pearland, waiting to turn. The car behind me didn't stop in time and hit me from the back.

Q: How fast do you think the other vehicle was moving when it struck you?

A: I'm not sure exactly. It didn't look like it was going very fast, but the impact was hard enough that my head snapped back and then forward.

Q: Did you feel anything right away, or did symptoms develop later?

A: Right away I had a stiff neck and a headache. By the next morning the pain had moved into my shoulders and upper back, and turning my head to check mirrors hurt.

Q: Have you seen a doctor or other provider since the accident?

A: Yes, I went to urgent care the same day and then started physical therapy. The doctor diagnosed whiplash and told me to rest and do the exercises.

Q: Are you still having symptoms now?

A: Yes, I still get stiffness and some pain, mostly when I'm driving or sleeping on the wrong side.

Q: Is there anything you want to add before we finish?

A: Just that I want to get back to normal as soon as I can. Thank you for listening.

Q: Thank you. This concludes the recorded statement.
