Claim Notes

Claim number:	C-1111
Claimant:	Samuel Murphy
Adjuster:	Valerie Rodriguez

12/31/2024

Claim opened after the insured driver reported being struck while turning left at an intersection. The claimant, who has no legal representative, gave a brief account during the first call.

01/03/2025

The insured driver is listed on the policy, and nothing in the file suggests the damage predates the start of coverage.

01/04/2025

The police report places the claimant in the other vehicle at the scene. No witnesses to the collision itself have come forward, and no photographs or second report have been submitted.

03/13/2025

The damage to the claimant's vehicle lines up with the impact described, and no earlier damage to that vehicle appears in the records.

04/01/2025

The claimant reports neck strain and was seen at a clinic shortly after the collision. The reported injury is plausible for a crash of this type.

05/10/2025

The claimant has told the same account in every conversation so far, including the order of the turn and where the vehicles made contact.

05/19/2025

Medical records show no earlier injury to the neck or upper back. Treatment has followed a usual course, with visits tapering as symptoms eased.

06/15/2025

Apart from the police record placing the claimant at the scene, no independent source has been located that confirms how the accident happened.

07/14/2025

Treatment has continued to taper as the claimant improves. The file remains open pending a final medical update before the injury component is closed.

Recorded Statement

Claim number:	C-1111
Statement of:	Samuel Murphy
Taken by:	Valerie Rodriguez
Date:	12/27/2024

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on a recording, but you can note that I'm the driver of the vehicle involved.

Q: That's fine. Can you tell me where the accident happened?

A: It was at an intersection in Conroe, Texas. I was turning left across the lanes when another car hit my passenger side.

Q: What was the traffic signal doing when you started the turn?

A: The light had turned yellow, and I thought I had time to clear it. Looking back, I probably should have waited.

Q: Did you see the other vehicle before the impact?

A: Not really. I checked for oncoming traffic, saw nothing close, and then I heard the horn and felt the hit.

Q: How fast were you going?

A: Slowly, maybe just starting to pick up speed through the turn.

Q: Were you hurt at the scene?

A: My neck was stiff right away, but I didn't think much of it. By that evening the pain had spread into my upper shoulders and I had trouble turning my head to check mirrors.

Q: Have you seen a doctor since then?

A: Yes, I was seen at an urgent care clinic and was told I had a neck strain. I've been doing home exercsies and taking over-the-counter pain relievers.

Q: Are you still experiencing symptoms today?

A: Some days are better than others. Driving longer than twenty minutes still bothers me.

Q: Is there anything else you'd like to add?

A: Only that I'm willing to provide my medical paperwork once I receive it. Thank you.
