Officer's narrative

Driver 1 was stopped at the signal eastbound on the main road in Pasadena, Texas, when the rear of the vehicle was struck by Driver 2, whose vehicle was traveling at a speed consistent with a sudden impact. Driver 1 reported pain in the neck and was assisted by responding medics on scene. The force of the collision appears consisetnt with the reported injury, and the damage to the rear bumper, trunk and taillight assembly matches the described impact. Photographs taken at the scene conifrm the positions of both vehicles and the visible damage. No independent witnesses were located, though the involved parties and a responding officer confirmed that the Passenger was seated in the vehicle at the time. Driver 1 is listed as the named insured on the policy. No prior damage to the vehicle was known to either party or noted during the inspection. Driver 2 acknowledged following too closely and was issued a citation for failure to control speed.
