Bodily Injury Unit

Claim Notes

Claim number:	C-1116
Claimant:	Joshua Myers
Adjuster:	Jerry Hanson

04/19/2024
Claimant reported a sideswipe while changing lanes and said the other vehicle drifted into their lane on the driver's side. Claimant is not represented by an attorney and has been cooperative in providing the initial account.

04/25/2024
Pohtos taken at the scene confirm several of the details the claimant described, though no independent witnesses have come forward to speak to how the clolision happened. The police report and a witness statement confirm the claimant was in the vehicle at the time.

07/15/2024
Inspection of the vehicle shows damage consistent with the described impact along the driver's side. A few older scratches are visible near the damaged area and may predate this loss; they are being noted separately. Nothing in the file suggests the damage occurred before the policy coverage began, and the driver is named on the policy.

08/07/2024
Claimant reports a wrist fracture from the impact. The injury fits the kind and force of a collision of this type. Medical records show a sensible course of treatment that tapered off as the claimant improved.

08/23/2024
Prior records show a minor strain in the same area several years ago, which healed fully with no lasting effects. Claimant was asked about it and acknowledged it, and the current injury is being evaluated on its own findings.

08/31/2024
Claimant has added a few small details to the account since the first report, but the core description of the lane change and impact has stayed the same across each interview. The file is being reviewed for settlement based on the medical and vehicle evidence.

Recorded Statement

Claim number:	C-1116
Statement of:	Joshua Myers
Taken by:	Jerry Hanson
Date:	01/28/2024

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep this to the facts of what happened, if that's okay.

Q: That's fine. Can you describe where the collision took place?

A: It was on a multi-lane road in League City, Texas, in the right-hand lanes. I was moving over to get into the lane on my right because I needed to make an exit.

Q: What were you doing right before the contact?

A: I checked my mirror, saw the lane looked clear, and signaled. I started to move over slowly.

Q: Did you see the other vehicle at any point?

A: Not in the mirror, no. I felt a bump on the passenger side and then heard scraping. My car drifted a little and I corrected it.

Q: Where did the other vehicle make contact with your car?

A: Along the right side, toward the rear door and the back panel. It was a sideswipe, so it was more of a scrape than a hard hit.

Q: Did you pull over after the contact?

A: Yes, I got onto the shoulder as soon as I could safely do it. The other driver also stopped a short distance ahead.

Q: Were you injured?

A: Yes. I put my right hand out to brace myself when the car jolted, and my wrist took the impact. I was seen at an urgent care clinic that evening and later told the wrist was fractured. I've been wearing a splint and have a follow-up scheduled with a specialist.

Q: Did you have any passengers?

A: No, I was alone in the vehicle.

Q: Is there anything you'd like to add to your statement?

A: Only that I'm willing to provide the medical paperwork once I receive it.

Q: Thank you. This concludes the recorded statement.
