Bodily Injury Unit

Claim Notes

Claim number:	C-1117
Claimant:	Debbie Ellison
Adjuster:	Chelsea Hebert

January 29, 2025
Claimant reported a side impact at an intersection and stated the other vehicle entered from the right against a red signal. The claimant is not represented by an attorney and has been cooperative with requests for information.

March 1, 2025
Responding officer's report and two independent witnesses place the claimant's vehicle at the intersection at the time of the collision. The other driver's account matches the claimant's description of how the crash occurred.

May 17, 2025
Photos taken at the scnee show damage to the driver's side that is largely consistent with the described impact. A few older scratches appear in the same area, and further inspection will determine whether they predate this loss.

July 5, 2025
Claimant reports neck and back strain, which is a plausible injury for a collision of this type. No prior injury to the same body area is known from the information gathered so far.

September 1, 2025
Claimant provided a follow-up statement adding a few small details, such as the approximate position of the other vehicle. The core account has not changed from the initial report. Treatment records show a typical course of care that has tapered off as the claimant improved.

September 8, 2025
Policy records confirm the driver is named on the policy, and nothing in the file suggests the damage occurred before coverage began. The claim remains open pending completion of the vehicle inspection.

Recorded Statement

Claim number:	C-1117
Statement of:	Debbie Ellison
Taken by:	Chelsea Hebert
Date:	January 30, 2025

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's okay.

Q: That's fine, we'll get to it. Can you describe where the collision happened?

A: It was at the intersection in League City, the one with the four-way signal near the shopping center. I was going through on the green.

Q: Which direction were you traveling?

A: Heading east, in the left lane, because I was going to turn at the next light.

Q: What did you see as you entered the intersection?

A: A pickup comnig from the north side. I think it had just switched from yellow. I didn't have time to brake all the way, and it hit the driver's side of my car.

Q: Did you notice the light color on your side when you started through?

A: Yes, it was green. I'd been waiting behind a couple of cars, so I was moving at maybe thirty miles an hour.

Q: Were you able to get out of the vehicle on your own?

A: I got out, but my neck was stiff right away, and by the evening my lower back was really sore. I've been taking it easy since.

Q: Have you seen a doctor or other provider for tohse symptoms?

A: I went to urgent care the next day. They said it was a strain and gave me a muscle relaxer and told me to follow up.

Q: Did you have any problems with your neck or back before this collision?

A: Not that I remember. I've had an occasional backache from lifting, but nothing that kept me from working.

Q: Is there anything else you think I should know about how the accident happened?

A: Only that I was careful and the other driver seemed to be in a hurry. That's about it.

Q: Thank you. This concludes the statement.

A: Okay, thanks.
