Claim Notes

Claim number:	C-1121
Claimant:	Benjamin Gonzalez
Adjuster:	Alison Sweeney

6 Mar 2025
Claim reported by the claimant, who states they were a passenger in a vehicle struck from behind at a stop. The claimant is not represented by a lawyer and has been advised of the claims process.

14 Mar 2025
Police attended the scene and their report confirms the claimant was in the vehicle at the time of the collision. Several bystanders who stopped at the scene also confirm this.

18 Mar 2025
Photographs supplied by the policyholder show damage to the rear of the vehicle consistent with the reported impact. No independent witnesses have come forward to describe the collision itself.

20 Mar 2025
The driver, who lives with the policyholder and is covered as a household member, gave a statement that matches the claimant's account of how the impact happened.

3 May 2025
The claimant reported shoulder pain on the day of the collision and was assessed at an urgent care clinic. The injury described is consistent with the force and direction of the impact shown in the vehicle damage.

6 Jun 2025
An inspection of the vehicle found damage to the rear bumper, tailgate, and surrounding panels that matches the described impact. No earlier damage to the vehicle is known to this office from its records.

19 Jun 2025
A repair estimate issued before the policy start date shows that damage of this same type and location already existed on the vehicle. This conflicts with the other information gathered so far and is being reviewed with the policyholder.

25 Jun 2025
Medical records received show the claimant has no prior treatment or complaints involving the same shoulder. No earlier injury to that area is known.

11 Aug 2025
The claimant has described the collision the same way in each conversation, including the initial call, the recorded statement, and a follow-up call. Details such as the speed and the sequence of events have stayed consistent.

18 Aug 2025
Treatment followed a typical course, with physiotherapy and medication over several weeks. The claimant's reported pain has eased steadily as treatment progressed, and the treating provider has noted improvement.

16 Sep 2025
The treating provider has indicated that treatment is tapering off as the claimant recovers. The claimant has been asked to provide any further records and to confirm whether symptoms have fully resolved.

29 Sep 2025
Based on the mediacl records, the photographs, the police report, and consisetnt statements, the injury appears genuine and proportionate to the collision. The prior repair estimate remains open for further review before a

stetlement decision is made.

Recorded Statement

Claim number:	C-1121
Statement of:	Benjamin Gonzalez
Taken by:	Alison Sweeney
Date:	1 Mar 2025

Q: Thank you for taking the time to give this recorded statement. Can you state where you were when the collision happened?

A: I was driving on Broadway in Pearland, heading east toward the main intersection near the shopping center.

Q: What were the weather and road conditions like at that time?

A: It was clear and dry. Traffic was moderate, nothing unusual for that stretch.

Q: Tell me what happened leading up to the impact.

A: I had slowed down because the light ahead turned yellow and the cars in front of me were stopping. I came to a complete stop behind a white sedan. Then I felt a hard jolt from behind.

Q: Did you see the vehicle that hit you before the impact?

A: No, I didn't see it. I was looking forward at the traffic signal. I only heard tires and then the impact.

Q: Were you able to get out of your vehicle after the collision?

A: Yes, but I was sore right away. My right shoulder hurt badly, and I had trouble lifting my arm. I sat on the curb until the ambulance arrived.

Q: Have you received any mediacl treatment since the accident?

A: Yes, I was taken to the emergency room and they took X-rays. The doctor said I had a strained shoulder and prescribed physical therapy. I've been going to sessions twice a week.

Q: Is there anything else you think I should know about the collision?

A: Only that I was wearing my seatbelt and my car was stopped completely when I was hit. I want to make sure my side of things is recorded accurately.

Q: Thank you. This concludes the statement.
