Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1122
Claimant:	Jessica Meyer
Adjuster:	Darin Tyler

10/01/2023
First notice of loss received from the insured's policyholder reporting a low-speed head-on collision at an intersection. The claimant was driving the vehicle at the time and reports a back strain shortly afterward.

10/02/2023
Confirmed the driver is named on the policy and that coverage was in force when the loss occurred. No issues found with the policy status.

12/09/2023
Obtained the police report, which places the claimant in the vehicle at the scene. Witness statements and scene photographs are consistent with the accident happening as described by all parties.

12/26/2023
Reviewed the damage photos and repair estimate. The front-end damage matches the described impact, and nothing in the file suggests earlier damage to the vehicle.

03/01/2024
Spoke with the claimant, who is not represented, about the injury. The account given matches what was reported at first notice. The back strain is a plausible injury for a collision of this type.

04/15/2024
Medical records show a course of treatment that followed a usual pattern and tapered off as the claimant improved. The claimant mentioned a minor strain in the same area years ago that healed fully, and that prior history has been noted in the file.

04/24/2024
Follow-up call with the claimant confirmed the same account of events as in every prior conversation. Based on the records and corroborating evidence, the bodily injury portion of the claim is proceeding through standard review.

Recorded Statement

Claim number:	C-1122
Statement of:	Jessica Meyer
Taken by:	Darin Tyler
Date:	09/28/2023

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to what happened, if that's okay.

Q: That's fine. We'll keep identifying details to a minimum. Can you tell me where the accident took place?

A: It was on a two-lane road in Katy, Texas, near a shopping center entrance.

Q: What time of day was it?

A: Late afternoon, maybe around rush hour. Traffic was slow.

Q: Walk me through what you were doing right before the impact.

A: I was driving west and slowing for a turn. The other car came over into my lane. I hit my brakes, but we still edned up touching front to front.

Q: How fast were you traveling?

A: Not fast at all. Maybe fifteen or twenty miles an hour. It was more of a bump than a crash.

Q: Did your airbags deploy?

A: No, they didn't. The seatbelt locked up and I felt it across my chest and shoulder.

Q: Were you taken for medical care?

A: A paramedic checked me at the scene, and I went to an urgent care clinic later that evening.

Q: Where are you experiencing symptoms now?

A: My lower back is stiff and sore, especially when I get up from a chair. Sometimes it radiates a little into my hip.

Q: Have you had any prior problems with your back?

A: Nothing serious. I had some stiffness years ago after lifting boxes, but it went away with stretching.

Q: Are you currently seeing a doctor or receiving treatment?

A: Yes, I have a follow-up with my primary care physician next week and I'm doing physical therapy twice a week.

Q: Is there anything else you'd like to add?

A: Only that I want to get back to normal and I'm cooperating with whatever you need.

Q: Thnak you. That concludes the statement.
