Description of the accident (claimant's words)

I was backing out of a parking space at a grocery store in Conroe, Texas, when my vehicle was struck on the rear quarter panel by another car that was moving through the lane behind me. I had checked my mirrors and saw nothing approaching, so the impact came as a surprise. I stopped right away, got out, and exchanged information with the other driver before the police arrived to take a short report. Since then I have described the collision the same way each time I have spoken with the adjuster, the repair shop, and my medical provider. I am the named driver on this policy and I have been the primary operator of the insured vehicle for the full coverage period. The impact left me with stiffness and pain in my neck and lower back, which I have been treating with my doctor and a physical therapist.
