Claim Notes

Claim number:	C-1124
Claimant:	Kevin Mayer
Adjuster:	Christopher Wong

11/02/2023

Claim opened after the insured reported a low-speed collision in a parking lot with a vehicle that backed out of a space. The claimant, who is not represented by counsel, reported neck pain and was advised on the next steps for medical evaluation.

11/26/2023

Spoke with the claimant by phone to confirm the sequence of events, and the account given matched the first report in every detail. The claimant described the impact as a rear-end contact at low speed with a sudden jolt forward and back.

12/12/2023

Reviewed the police report, which places the claimant in the vehicle at the time of the collision and records the location and the parties involved. Two independent witnesses also confirmed the claimant was seated in the car when it was struck.

01/04/2024

Received photographs of the vehicle damage from both drivers. The damage to the rear bumper and tail light is consistent with the impact described and with the speed reported.

01/19/2024

Contacted the other driver, who confirmed the accident happened as the claimant described. The other driver's statement was taken and filed with the claim.

03/04/2024

Inspected the vehicle and noted a few old scratches on the lower panel. These may predate this collision, so they have been marked separately from the new damage for the repair estimate.

03/09/2024

Reviewed the medical records, which show whiplash-type symptoms that fit the kind and force of this impact. The treating provider followed a usual course of care for this type of injury.

03/18/2024

Claimant reported that a small strain in the same area of the neck occurred several years ago and healed completely with no lasting limits. The prior history has been noted in the file, and the treating provider was aware of it.

04/03/2024

Checked the policy records and confirmed the policy was active at the time of the loss. Nothing in the file suggests the damage occurred before the coverage start date.

05/13/2024

Confirmed the driver of the insured vehicle lives in the policyholder's household and is covered as a resident family member under the policy terms.

05/20/2024

Treatment has tapered as the claimant improved, and the most recent update from the provider describes steady recovery with fewer visits scheduled. No further treatment requests have been received at this time.

06/06/2024
Prepared the file for the settlement review. The claimant's account has remained consistent across all contacts, and the documents support the reported injury and vehicle damage.

Recorded Statement

Claim number:	C-1124
Statement of:	Kevin Mayer
Taken by:	Christopher Wong
Date:	11/01/2023

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the parking lot collision you reported in Conroe. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please state your full name and the address where you currently receive mail.

A: I'd rather just keep it to the accident dteails for now, if that's okay.

Q: That's fine for the moment. Can you walk me through what happened in the lot?

A: I was backing out of a parking space near the store entrance. I checked my mirrors and started slowly, and then I felt a bump on the driver's side. It was another vehicle coming down the aisle that I didn't see until it was already close.

Q: How fast would you estimate you were moving when the contact occurred?

A: Very slow, maybe walking pace. I'd say a couple of miles an hour.

Q: Did you noitce any injuries right after the impact?

A: Not at first. I felt fine enough to get out and look at the damage. By that evening my neck was stiff, and by the next morning I had a sharp pain going into my shoulders and headaches when I turned my head.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to urgent care the following day and they diagnosed whiplash. I've been seeing a physical therapist twice a week since then.

Q: Do you have any prior neck or back complaints?

A: I had some mild stiffness years ago after a fall, but nothing that required treatment, and I hadn't had any problems in the year before this happened.

Q: Thank you. Is there anything you'd like to add to your statement?

A: Just that I'm trying to keep working, but I've had to limit how long I sit at my desk.

Q: Thank you for your time today.
