Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Conroe, Texas, when my car met the rear bumper of a pickup that was rolling slowly through the aisle. The impact was not severe, but my head snapped forward and then back, and I felt a sharp pain in my neck and upper shoulders within minutes. I gave the same description to the other driver, to the responding officer, and later to the adjuster and the medical staff: I checked my mirrors, I was moving at walking pace, and I did not see the pickup until the contact. I live in the same household as the policyholder and I was driving the insured vehicle with permission, which I understand makes me a covered household member under this policy. I have been seeing a physical therapist for the stiffness and headaches since the collision and I am following the treatment plan I was given.
