Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from my left ran the red and struck the driver's side of my car. The impact pushed my vehicle sideways and I felt my head snap and my lower back wrench against the seat. I stayed at the scene until the police arrived and gave the same description of what happened to every person who asked, including the officer, the other driver, and the adjuster I spoke with afterward. I am the household member of the policyholder and I was operating the car with permission, so I am submitting this claim under that coverage. Since the collision I have had stiffness in my neck and soreness across my back, and I have been attending physical therapy to address the strain.
