Officer's narrative

Driver 1 was traveling northbound through the interesction in Sugar Land, Texas, when a vehicle traveling westbound entered the intersection and struck the driver's side of Driver 2's vehicle. Driver 1 was seated behind the wheel of the struck vehicle, and a Passenger was seated in the front passenger seat. Driver 2 is the claimant in this report and reported neck and back strain at the scene, a complaint consistent with the forces typical of a broadside collision of this type. Responding officers observed damage to the driver's side door and quarter panel that matches the described direction of impact. Scene photographs confirm the general positions of the vehicles and the damage pattern, although they do not capture every detail of the approach. No independent witnesses were located, and no earlier damage to the vehicle is known to officers or to the owner. Both the responding officers and the persons on scene confirmed that Driver 2 was present in the vehicle at the time of the collision. Driver 2 is identified as a household member of the policyholder, residing at the same address.
