Claim Notes

Claim number:	C-1127
Claimant:	Jessica Thompson
Adjuster:	Christopher Wong

2023-09-04
Claim opened after the insured reported being struck from behind while stopped at a traffic signal. The claimant, a passenger in the insured vehicle, reported right shoulder pain at the scene and has since retained counsel, who asked that all contact go through their office.

2023-09-07
The responding officer's report records a rear impact and notes the claimant seated in the rear of the insured vehicle. Two independent witnesses at the intersection gave statements that match the accounts of the isnured and the other driver.

2023-09-12
Scene photographs show damage to the rear bumper and tailgate of the insuerd vehicle, and the damage to the fornt of the other vehicle lines up with it. The pattern and location fit the impact as reported.

2023-10-24
Coverage review complete. The driver is listed on the policy, the policy was in force at the time of loss, and nothing in the file suggests the vehicle damage predates the coverage start.

2023-12-13
Claimant's counsel sent a medical summary describing a shoulder injury. The adjuster noted that the type of injury is what would be expected from a rear impact of this force. The claimant's account given by phone matched what was said at the scene.

2023-12-26
Prior records were requested from the claimant's providers and the insurer's database. No earlier treatment or complaints involving the same shoulder are on file.

2023-12-29
Treatment followed a usual course, beginning with physiotherapy and anti-inflammatory medication. The treating notes show steady improvement, with the number of sessions tapering as range of motion recovered.

2024-01-18
An inspection photograph from an earlier vheicle inspection shows a dent in the same rear panel area that appears to match the damage now claimed. This conflicts with the other evidence and needs to be reconciled before the file moves forward. The adjuster has asked the insured and the repair facility for an explanation.

2024-04-17
Claimant interviewed again with counsel present. The account was the same as in every prior conversation. The earlier photograph was raised, and counsel said they would respond after speaking with the client.

2024-04-21
File referred for review of the prior-dent question. Reserve maintained pending counsel's response, and the next follow-up is set for the coming week.

Recorded Statement

Claim number:	C-1127
Statement of:	Jessica Thompson
Taken by:	Christopher Wong
Date:	2023-09-07

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident and my injuries, if that's okay.

Q: That's fine. For the record, you were the driver of the vehicle that was struck from behind, correct?

A: Yes, I was driving my sedan. I was stopped at a red light in Sugar Land, first car in the lane.

Q: Tell me what happened in your own words.

A: I was waiting for the light to change, and then I felt a hard jolt from behind. My head snapped back and then forward. The other driver's bumper was pretty much right at my trunk by the time I realized what was happening.

Q: Did the other driver say anything to you at the scene?

A: They apologized and said they looked down at their phone for a second. They seemed shaken up too.

Q: Were you able to drive your car away from the scene?

A: No. The rear of the car was crumpled and the trunk wouldn't close right. A tow truck took it.

Q: When did you first notice pain?

A: Within an hour or so. My right shoulder started aching, and by that evening I couldn't lift my arm above my shoulder without sharp pain.

Q: Have you seen a doctor or received treatment?

A: Yes, I went to an urgent care clinic the next day, and they referred me to an orthopedist. I'm starting physical therapy this week.

Q: Did you have any shoulder problems before this accident?

A: No, not that I can recall. I've been active and never had any treatment for it.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm still missing work and I'm worried about how long recovery will take.

Q: Thank you. This concludes the statement.
