Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1128
Claimant:	Miranda Rodriguez
Adjuster:	Chelsea Hebert

20 Jan 2025
The insured repotred a rear-end collision at a traffic signal and said a passenger in the vehicle was complaining of neck pain at the scene. The insured is the named driver on the policy, and the policy was in force at the time of loss.

1 Feb 2025
Police attended and their report lists the cliamant as an occupant of the insured vehicle. Two independent witnesses gave statements that the collision happened as the insured described.

25 Feb 2025
Photographs of both vehicles were uploaded to the file by the insured and the other driver's carrier. The other driver's account matches the insured's account of how the impact occurred.

28 Feb 2025
The claimant's counsel has written to adivse that the claimant is represented and asked that all contact go through their office. Further contact with the claimant has been directed to counsel from this point.

18 Mar 2025
The claimant's initial medical records describe neck strain with a reported injury that fits the mechanism of a low-speed rear impact. No prior complaints involving the neck or that body area appear in the records obtained so far.

14 Apr 2025
Counsel provided a recorded statement from the claimant, which repeated the same account of the collision given at the scene and during the first call. No changes to the sequence of events or the injury description were noted.

29 Apr 2025
The vehicle appraiser inspected the insured vehicle and found dents on the rear panel that sit lower and on the opposite side from the impact area described in the accounts. The height and location of the damage do not line up with the described collision, and the appraiser has flagged this for review.

7 May 2025
Searches of the vehicle history show no earlier claims or damage recorded against the insured vehicle. Nothing in the file suggests any damage existed before the policy's coverage began.

17 May 2025
Treatment records show physiotherapy sessions that tapered off over several weeks as the claimant's symptoms improved and then stopped. The course of care is consisetnt with what is usually expected for this type of injury.

4 Jul 2025
Discussed the appraiser's findings with the supervisor, who asked that the damage mismatch be documented in full and that a second isnpection be arranged before any settlement position is taken. The file remains open pending that inspection.

Recorded Statement

Claim number:	C-1128
Statement of:	Miranda Rodriguez
Taken by:	Chelsea Hebert
Date:	3 Jan 2025

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just go by the claim number on this one, if that's okay.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was driving down the main road in Pasadena, Texas, heading toward the shopping center. Traffic had slowed down ahead of a light.

Q: What were you doing right before the impact?

A: I had come to a stop behind a pickup. I checked my mirror and then felt my car get hit from behind, pretty hard.

Q: Did you see the other vehicle before it hit you?

A: Not really. I only saw it in the mirror for a second, and it looked like it was going too fast for the traffic.

Q: Were you able to drive your car away from the scene?

A: It was drivable, but the back bumper was pushed in and the trunk wouldn't close right. A tow truck took it.

Q: How are you feeling physically since the accident?

A: My neck is sore and stiff. When I turn my head to the left, I get a sharp pain going down toward my shoulder. I also have a headache most mornings.

Q: Have you sought medical treatment?

A: Yes, I went to an urgent care clinic the same afternoon, and I've been seeing a physical therapist twice a week since then.

Q: Have you had any problems with your neck or back before this collision?

A: I had some stiffness years ago from sleeping wrong, but nothing that stopped me from working or doing my normal activities.

Q: Is there anything else you think I should know?

A: Just that I've missed a few days of work because I can't sit at my desk for long periods without my neck aching.

Q: Thank you. That concludes the statement.

A: Okay, thank you.
